

“From a speed perspective, the Quick Clip system is **75% faster!**”

Justin Hand, Firestopping Superintendent for Colorado, Colorado Mechanical Insulation

Introducing the SpecSeal® Quick Clip™ Perimeter Fire Containment System, now with brackets for 5-inch and 6-inch insulation!

Experience the fastest way to secure spandrel insulation with our brackets, which require only one screw—no need for impaling pins or spikes. Our self-locking fasteners and specialized brackets eliminate the need for stiffeners in most tested systems, saving both time and materials. For your next project, discover what our existing customers already know: **the SpecSeal Quick Clip is the most efficient and cost-effective method for meeting building codes at the edge of the slab. Now that's fast!**

We engineer peace of mind.
