

Intumescent Firestop Collars

SpecSeal® LCC Firestop Collars are factory-manufactured firestop devices sized to fit plastic pipes up to 4 in. (102 mm) trade size. LCC Collars consist of a metal shell with an intumescent rubber lining and integral locking mechanism. In the event of a fire, the collar quickly expands with heat (intumesces) to seal off the path for fire, smoke, and hot gases. Eliminate the guess work and simplify the process of firestopping plastic pipe with SpecSeal® LCC Collars.
