ONE REPORT.
COMPLETE
TRACEABILITY.
ZERO CLUTTER.

Consolidated tool reporting allows you, as the customer, to merge your BHA and specialty tool inspection reports into one cohesive report. This consolidated report was designed to eliminate the exhausting task of tracking down serial numbers through sometimes dozens of reports.

DELIVERING
EXCELLENCE
AND INNOVATION

NEW FEATURE RELEASE

Consolidated Downhole Tool Inspection Report

- Reduce multiple emails and attachments into a single consolidated report per job for the end user.
- Select multiple serial numbers from the Historical Tool Dashboard and merge instantly.
- Preserves the original inspection date and report number on the new consolidated report for full traceability.
- Displays only tools that the end-user received for a cleaner more client-focused inspection report.
