CUSTOMER PORTAL USER GUIDE

LOG IN

- Select the Centrix Customer Portal [LINK](#)
- Enter your email address
- Enter the password received from the customer setup email
- Select your preferred language
- Select “Sign In”

For any issues or support, please contact the administrators at centrix@wellboreintegrity.com or your local DRILCO sales representative

FORGOT PASSWORD

- Click “Forgot Password”
- Enter your email address and select “Send OTP”
- An OTP verification will be sent to the entered email
- Enter the received OTP and select “Validate OTP”
- Once validated, your new password will be sent to your email address
- Enter the new password and select “Sign In” to access the platform

SIDE NAVIGATION PANEL

Used to navigate between modules within the portal

- Select arrow (highlighted in red) to expand and collapse

Modules include:

- Inventory Dashboard
- Historical Tool Data
- Customer Call Report (CCR)
- Jobs
- Material Receiving Ticket (MRT)
- Forms
- Work Order
- Billing Authorization
- Ship Ticket
- Inventory Reports
- Document Library

Side Navigation Panel

INVENTORY DASHBOARD

- Analytical display of customer-owned assets within a DRILCO location
- Advance search feature (highlighted in red) allows users to filter graphs as needed
- Select desired filters and click search
- Legends can be filtered by selecting fields to remove them from charts

Displays graphs such as:

- Rig ready assets
- Assets by location
- Assets by service required
- Assets by rig
- Assets by tool type
- Rig ready by rig
- Status of my assets
- Amount of assets received at a DRILCO location by month
- List of unapproved billing authorizations

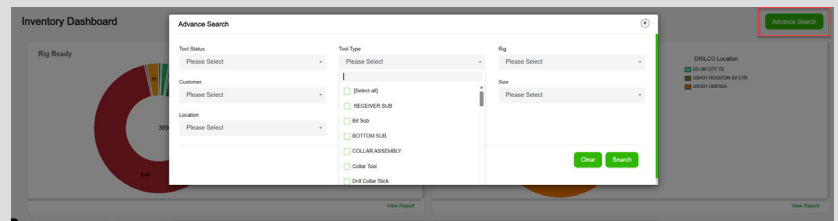

HISTORICAL TOOL DATA

- Display of historical inspection line data for drill pipe, BHA, or specialty tool inspection report
- Search by serial number to view full asset history
- Displays the 10 most recent inspection reports (view via icon)
- Data can be exported to Excel using the Excel icon

Asset analytics by serial number include:

- Total inspections
- Tong space change
- Total length change
- Damage history
- OD wear

Inventory Dashboard

- Allows users to create a consolidated report based on serial numbers
- Go to Historical Tool Data in the side navigation panel
- Select the checkbox next to desired serial numbers and click “Create Report”
- Merge multiple tools from the Historical Tool Dashboard into one report
- Maintains original inspection dates and report numbers for traceability

Converts inspection data into an interactive dashboard that provides real-time visibility into asset condition, wear, performance, and trends.

- To perform a comparison analysis:

- Select Comparison Analysis
- Select the desired analysis type (for example, Rig, Operator, Tool Type, Basin, Connection, or Peer)
- Select the desired time interval
- Apply any additional filters as needed

The screenshot displays the Centrix Analytics Dashboard. At the top, there's a navigation bar with the Centrix logo and a user profile icon. Below this, the dashboard is divided into several sections:

- Top Section:** Contains four circular progress charts showing different metrics: 72%, 69%, 100%, and 98%.
- Key Status Insights:** A table summarizing various system metrics.
- Task Classification:** A horizontal bar chart showing task distribution across different categories.
- API Classification:** Another horizontal bar chart showing API usage or performance metrics.

The 'Key Status Insights' table is as follows:

Category	Current	Target	Status	Details	Range	Notes
System Health	92%	95%	OK	The system is healthy.	90% - 95%	Monitor for updates.
API Performance	85%	90%	Warning	API response times are increasing.	80% - 90%	Investigate root cause.
Database Status	98%	99%	OK	Database is running smoothly.	97% - 99%	Regular backups.
Network Latency	120ms	100ms	Warning	Network latency is slightly high.	100ms - 150ms	Check network configuration.

JOB

- Displays all customer jobs created by DRILCO
- Columns can be filtered by typing desired criteria
- To view a job, select the View icon in the Action column

Each job includes:

- MRTs
- Work Orders
- Billing Authorizations
- Ship Tickets
- Customer Call Reports

Click each section to expand and view details.
material receiving ticket

MATERIAL RECEIVING TICKET (MRT)

- Displays all MRTs created by DRILCO
- Columns can be filtered for easy searching
- Documents all assets received at a DRILCO location
- Inventory Reports update automatically when MRTs are created/updated

To view details:

- Select “View”
- Details include quantity, description, rack location, and status

MRTs can be exported as PDFs using the icon in the top right.

WORK ORDER

- Displays all customer work orders
- Columns can be filtered for easy searching
- Select the View icon to open a work order

Each work order includes:

- Forms
- Tool and service details

Details include specifications and service quantities for each line item.

Job

Material Receiving Ticket

Work Order

FORMS

- Repository of all inspection forms
- Search by serial number to filter relevant reports
- Search bar located at the top left
- Reports will display if the serial number is included
- Columns can be filtered for easier navigation
- Select View to open a form

Additional features:

- Forms can be signed by the customer
- Forms can be exported as PDFs (top-right icon)

SHIP TICKET

- Displays all ship tickets created by DRILCO
- Columns can be filtered for easier searching
- Select View to open a ship ticket

Includes:

- List of shipped assets
- Trucking information

Driver signatures are captured in the system at the time of shipment.

BILLING AUTHORIZATION

- Displays all submitted billing authorizations
- Columns can be filtered for easier searching
- Select View to open a billing ticket

Displays:

- Item descriptions
- Unit pricing
- Charge types
- Units

Features:

- Customers can electronically sign by typing their name
- A stamp can be uploaded if required
- Signatures/stamps appear on the printed version button
