Comprehensive Insurance Coverage for Architects, Engineers, & Surveyors (AE&S)

Architectural, engineering, and surveying firms have wide-ranging property and casualty insurance needs that go beyond common exposures. The Breckenridge AE&S underwriting team delivers two decades of underwriting experience for these design professionals as a trusted partner with a top-rated, admitted carrier.

With in-house authority to offer up to \$10 million in general liability and wide-ranging coverages from business auto to property, inland marine, umbrella and workers' compensation, we are committed to safeguarding these design firms. Our team can tailor the right approach for those clients with more intricate risks while addressing the diverse insurance regulations of various states.
