

# Professional Liability

## Program Overview

At Synergy, that mantra permeates every type of insurance coverage we oversee. It is essential for companies in industries as dense and evolving as media, law, real estate, and others to set themselves up for success by preparing for when a failure in service occurs. Our professional liability coverages are tailor-made for those in complex industries, where they can coordinate how to proceed when something goes awry so an otherwise big problem can have minimal impact.
