Breckenridge Provides Personalized Policies for Wind, Hurricane, and Hail Exposures

As commercial property risks are not one size fits all, the Breckenridge Insurance brokerage team provides tailored options for Windstorm & Hail Deductible Buy Backs to lessen the insured's wind, hurricane, and hail expense exposures. Under this separate policy, the insured can reduce the deductible to a lower percentage or flat rate. This attractive solution gives flexibility where needed, particularly in areas likely to experience weather related events.
