

TankGuard® Program

Overview

The team at Chamber Agency and Policy Managers offers top-rated Storage Tank Liability Insurance (TankGuard® Program) to provide competitive coverage for third-party bodily injury and property damage from pollution conditions emanating from scheduled underground and aboveground storage tanks. The policy also provides coverage for corrective action and cleanup as required by applicable federal and state regulation. The policy can be utilized to meet State and Federal storage tank financial responsibility requirement for underground and aboveground storage tank owners and operators.
