Benchmark Gensuite®
Action Tracking System
Simplify Corrective Action Processes

BENCHMARK GENSUITE®

Discover What ATS Can Do For You

Build accountability and improve communications

Create a culture of safety and responsibility through effective management of corrective actions. Action Tracking System (ATS), from Benchmark Gensuite Audit & Compliance suite, streamlines corrective action management and follow-up processes through an intuitive, digitized system.

Leverage powerful analytics and Mobile capabilities to identify opportunities for improvement, while managing programs in quality, incident management, responsible sourcing, security and more.

▶ Drive overall assignment ownership and accountability

▶ View responsibilities for assignments and completions across your entire team

▶ Log & define corrective actions, set and achieve closure targets

▶ Communicate assignment details via automated email notifications

▶ Data mine compliance status with advanced charting and reporting features enabling users to trend for systemic problems

▶ Intelligent integrations allow ATS to work seamlessly with cross-functional Benchmark Gensuite solutions

Log, Define & Drive Corrective Actions
to Closure with Benchmark Gensuite

- 120+ Companies Using ATS

- Findings Tracked at 40,000+ Sites

- 8.2+ Million Findings Tracked to Date

ATS In Action:

Identify Issues

Use Benchmark Gensuite tools to identify areas of concern regarding audits & compliance, incident management, quality management, equipment maintenance, security management and beyond.

Compile & Assign

Compile findings and assign across your team.

Drive Corrective Actions to Closure

Easily manage assignments, closure due dates, and subsequent corrective actions until assignments are complete.

What are people saying about
Action Tracking System

"What our team likes most about Benchmark is that it is one simple tool to manage all EHS and compliance needs, eliminating the use of multiple excel spreadsheets. Everything is connected which makes managing tasks so much easier - for example, you can easily export concerns into ATS for corrective action tracking."

- Judge, Environmental Leader Product & Project Awards
