

CASE STUDY: BG DYNAMIC ENGINE RESTORATION SERVICE

SERVICE BG Dynamic Engine Restoration Service

PRODUCTS BG Dynamic Engine Cleaner, PN 103192
BG Dynamic Engine Cleaner Rinse Oil, PN PE04-N1GA
BG Platinum® 44K®, PN 208
BG Advanced Formula MOA®, PN 115

VEHICLE:
2013 Ford Edge 3.5 L
83,055 miles (133,664 km)

PROBLEM

The vehicle had regular factory maintenance intervals performed with recommended factory oil. It came in throwing timing and misfire codes. Micro-passageways in the head were clogged and not letting timing chain tensioners or cam phasers function properly.

SOLUTION

The BG Dynamic Engine Restoration Service: a powerful, safe engine and fuel system cleaning service.

Features

- Removes oil sludge and varnish
- Restores compression
- Harmless to oil pumps, seals, and gaskets

Benefits:

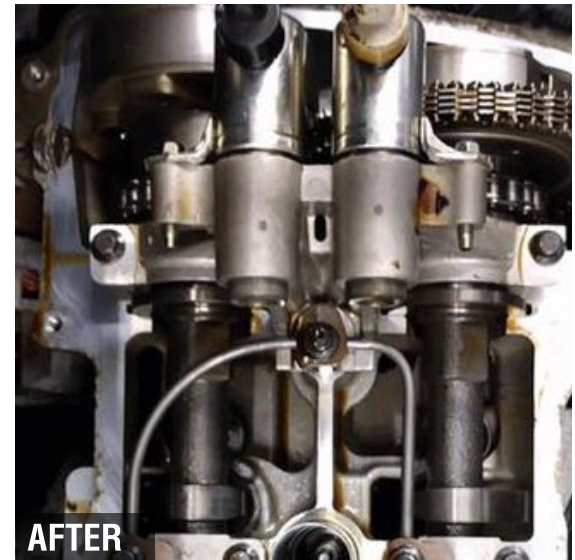

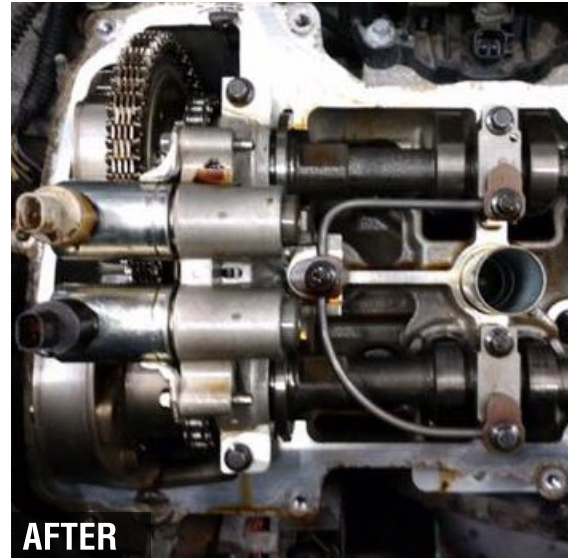

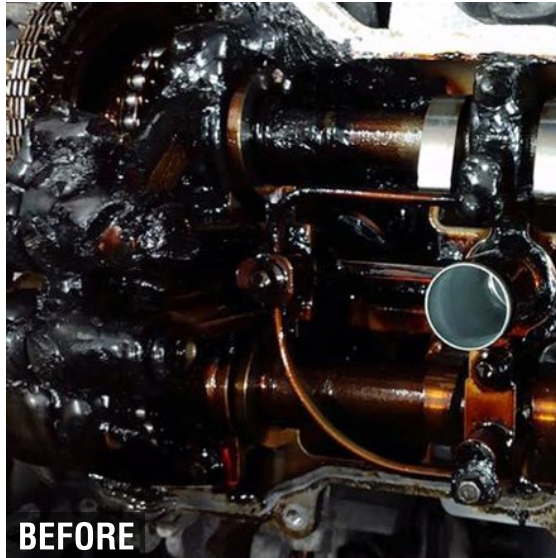

- Lowers tailpipe emissions
- Reduces oil consumption
- Improves overall power and engine efficiency

SERVICE RESULTS

CRANKCASE

SUMMARY

BG Dynamic Engine Restoration cleaned the crankcase and removed oil sludge and varnish. The problems have resolved, and as a result, this vehicle will last longer and perform better.
