

# FuelerPlus

## Features

**FuelerPlus** lets you track fuel transactions and consumption across your entire fleet to get control of your expenses and make smarter equipment decisions. Manage fuel dispensed by your trucks or third-party transactions and capture fluid usage and equipment servicing data, and send this information directly to accounting to eliminate double entry and improve accuracy. This list includes our most widely used features but does not encompass all **FuelerPlus** functions.

### Managers

Features	Manager Desktop	Mobile
