

HCSS Plans

Manage Field Plans & Documents More Efficiently

In the Office

EASY DOCUMENT UPLOADS

with full markup, annotation, and calculation abilities, including clouds and polygons, links to call-outs, notes, photos, and even videos.

HCSS INTEGRATION

with **HeavyBid**, **HeavyJob**, and **HCSS Safety** allows you to access estimator notes and measurements, send calculations to the Daily Diary, and ensure crews are following relevant safety protocols. (Coming late 2018)

USED IN THE OFFICE

by project managers, engineers, estimators, and executives across all jobs.

Upload drawings and plans or any relevant job information, make annotations or calculations, distribute revisions, overlay and control versions, and send the most up-to-date documents to the field.

WEB-BASED APPLICATION

can be accessed on any device with an Internet browser (desktop, laptop, or mobile device).

Office

In The Field

USED ON THE JOB SITE

by field supervisors, foremen, and crew leaders.

MOBILE APP

can be used in both connected and disconnected modes on iPhone or iPad.

CUSTOMIZABLE ACCESS

allows managers to create user groups and control access levels.

MAKE ANNOTATIONS IN THE FIELD

by performing calculations, annotating sheets, creating layers, sharing sheets, and copying quantities to **HeavyJob**.

SEND DATA TO THE OFFICE

since the field system communicates directly with the manager system in real time in connected mode.
