## WELLNESS DAYS

### LOVE YOUR HEART

This transformative experience allows you to release old burdens, set fresh intentions, and reconnect with your heart's true desires. A journey that guides you to align with your authentic purpose, reigniting your zest for life while uncovering deeper meaning and fulfillment.

### MIND YOUR BRAIN

This one-day program helps you care for and improve the state of your brain and how it works through ancient practices from Aerial Yoga and Sound Journey, combining movement, breath, and immersive sound experiences to enhance mental clarity, reduce stress, and promote overall well-being.

### BOOST YOUR IMMUNITY

Our one-day wellness experience is the perfect immunity reboot if you're feeling sluggish, run-down, or fatigued from stress or long journeys. Take a break from the outside world and dedicate a day to relaxation, focusing entirely on your well-being and recharging your body, mind, and soul for greater vitality and overall balance.

## THERMAL JOURNEY

The many healing benefits of water and heat therapies have been practiced for centuries to reduce muscle tension, relieve pain and stress, boost the immune system and encourage detoxification. Fast forward to today's Six Senses hydrotherapy experiences, which provide an alternative yet therapeutic way to ease muscle aches and boost overall well-being, using the physical properties of water in several different forms. What's more, the muscles will be relaxed and the mind calmer, creating optimum conditions for achieving the best results.

### Heated Loungers

A great start to the hydrotherapy circuit. Lie back on contoured tiled lounge chairs, radiantly heated at 35 degrees Celsius (96 Fahrenheit), allowing the heat to penetrate deep into the body to relax, reinvigorate and soothe muscles.

### Crystal Steam Room

This aromatic steam room features a pure rock quartz crystal known as 'a master healer' to amplify energy, improve concentration and focus, and balance and revitalize the body, mind and soul. Choose your desired steam temperature at two bench levels.

### Finnish Sauna

The high temperatures in this classic dry-heat sauna help release endorphins, the body's natural painkillers for relieving muscle soreness and pain. Sweating also opens the skin's pores to flush the body's impurities in a natural way.

### Experiential Rains

Recommended to use after the sauna or steam, cooling showers stimulate circulation and aid better oxygenation of the body, wash away the toxins and clarify the mind. Light and sound effects enhance the experience.

*For pregnant guests, we kindly ask that you consult with your doctor before visiting facilities*

### **Hydrotherapy Pool**

Enjoy hydromassage stations designed for relaxation, rebalancing and releasing tension throughout the body.

### **Igloo**

Ideal to use after the sauna, steam or the hydrotherapy pool session, icy circulating air cools the skin, and is most beneficial when inhaled deeply into the lungs, then exhaled slowly. Grab a handful of ice, rub it over the body to stimulate circulation and oxygen uptake, boost the immune system and gently exfoliate the skin to eliminate toxins. An Arctic mist spray and heated floor enhance your chilled-out experience.

### **Foot Therapy Basins**

Boost circulation and recharge the body as you soak tired feet, alternating hot and cold water, while seated on a heated bench. The bubbles massage the feet and ankles, stimulating pressure points as in a reflexology session.

### **Salt Grotto**

Lie back on heated benches made of thick Himalayan natural rock salt as soothing “sea air” washes over you. Salt therapy relieves respiratory ailments and its calming and detoxifying effects also support the immune, nervous and lymphatic systems. Other benefits include less stress, more energy and improved sleep quality.

*For pregnant guests, we kindly ask that you consult with your doctor before visiting facilities*
