# PERSONALIZED WELLNESS

### WELLNESS SCREENING, 45 MINUTES

Understanding what your body is telling you is the perfect place to start your wellness journey. Our experts can build a meaningful plan based on your current reality through a non-invasive screening which analyzes your key physiological biomarkers. Once we know what's going on inside, we'll create a personalized program that blends high-tech science with ancient healing traditions, alternative therapies, holistic spa treatments and wellness activities.

### NUTRITION

Whatever wellness journey you decide to take, our experts provide nutritional recommendations following the guiding principles of Eat With Six Senses, our food and drink philosophy which simply helps you live better. Because quality of food matters, we work with fresh, seasonal, locally-sourced produce some of which comes from our organic gardens and farms. Our chefs use a simpler approach to preparation, focusing on quality, balance and food made from scratch, while avoiding the bad stuff (food additives, flavor enhancers, lectins, lactose, gluten and refined sugar).

*If you're already walking the walk along the path, choose one of our wellness programs to help you along the way.*
