Our Commitment to Veterans

Unite Us was a proud finalist in the Mission Daybreak grand challenge that called on innovators to develop suicide prevention solutions that meet the diverse needs of Veterans. Unite Us is among the 30 finalists selected from over 1,300 submissions to advance to the Phase 2 virtual accelerator. Our solution, **Saving Veteran Lives Through Empowered Community Networks**, is designed to reduce Veteran suicides by identifying the social care needs of Veterans who present risk factors for suicide, enrolling those Veterans in services, and ensuring they quickly receive services that meet their social care needs.

Our Proven Model to Support Veterans

Unite Us partnered with the Veterans Education Career Transition Resource (VECTR) Center to help Veterans in Georgia find and access educational and employment resources through our social care referral platform. The VECTR Center was established by the state and provides a one-stop shop for Veterans seeking benefits, educational opportunities, employment services, and links to community resources.

✓ **300%**

Time to case closure dropped from **9.3 days** on average in 2020 to **2.8 days** in 2021, a 300% decrease.

In Year One, VECTR led to a 300% reduction in wait times for case resolution, from more than nine days to approximately 2.5 days, facilitating access to support organizations, workforce resources, food providers, housing providers, and more.

Critically, **100% of employment cases were marked as resolved in the first year**, making a monumental difference for Georgia Veterans.
