

# **BIRD-FLIGHT<sup>™</sup> DIVERTER**

The **BIRD-FLIGHT Diverter (BFD)** is designed to make overhead lines and guyed structures visible to birds and provides an economical means of reducing the hazard to both lines and birds.

The **Plastic BFD** is manufactured from rigid, high-impact PVC possessing excellent chemical resistance and tensile strength properties. The BFD will retain good physical characteristics over a range of temperatures.

The **Galvanized BFD** is designed to make guyed structures more visible to birds and provide an economical means of reducing the hazard to both lines and birds. The diverter's positive grip on the cable ensures that it remains in the applied position and will not move along the cable under aeolian vibration or other conditions.

### FEATURES AND BENEFITS

- · Lightweight, economical, and easily applied by hand or hot stick
- · Positive grip prevents product from moving along the span
- Long service life without deterioration of material properties
- Minimal wind resistance
- Manufactured from gray or yellow high-impact PVC with UV protection or aluminum alloy for high temperature requirements (contact PLP for other color/voltage options)
- Meets UL 94 V-0 flammability requirements
- For severe icing conditions, the Galvanized BIRD-FLIGHT Diverter is recommended

### **SPACING**

Horizontal Line Layout

For optimal results, spacing distances are generally recommended at 15-foot intervals, depending upon local conditions. Since wind resistance is very limited, a sufficient number of BIRD-FLIGHT Diverters can be used to ensure adequate visibility without creating stresses on the line. When marking adjacent spans, overall visibility is improved by staggering the placement between spans.

## **ORDERING INFORMATION**

- For use on bare and jacketed conductors, strand, and fiber optic cables
- Contact a PLP representative for more information regarding which product to select for a specific application.

| Catalog Number |            | Conductor Diameter Range |              | Overall Length | Diverter Coil  | Calar         |
|----------------|------------|--------------------------|--------------|----------------|----------------|---------------|
| YELLOW         | GRAY       | Minimum                  | Maximum      | <b>j</b>       | Outer Diameter | Color<br>Code |
|                |            | in (mm)                  | in (mm)      | in (mm)        | in (mm)        |               |
