

SLACKLOOP® 60" CABLE STORAGE

The **SLACKLOOP 60" Cable Storage** neatly stores slack cables on wood poles, metal poles, and lattice towers. The storage system is available in a 60" size and consists of crossarms that are attached to a central vertical bracket that can be bolted or banded to a structure. The crossarm's metal keepers maintain the proper bend radius for the slack cable. Cable straps (not provided) can be used to neatly group cable loops and secure them to keepers, if desired.

FEATURES AND BENEFITS

- Metal channel structural frames provide a durable lightweight design with rigid strength
- Frames are made from corrosion-resistant galvanized steel
- Keyholes along the central vertical bracket allow various splice closures to be mounted using specialized mounting bracket kits
- Wide cable keepers with smooth tapered ends for better cable support
- Factory-installed keepers minimize field assembly, and the product comes in a compact container for easy, efficient storage

SPECIFICATIONS

SLACKLOOP 60" Cable Storage
