### PRESS RELEASE

# PLP ANNOUNCES FOURTH QUARTER AND FULL YEAR 2023 FINANCIAL RESULTS

**CLEVELAND, OHIO - MARCH 7, 2024** - Preformed Line Products Company (NASDAQ: PLPC) today reported financial results for its fourth quarter and full year ended December 31, 2023.

Full Year 2023 Highlights:

- Fifth consecutive year of record annual net sales; increased 5% from 2022
- Record net income of \$63.3 million
- Diluted EPS of \$12.68, an increase of 17% from 2022, a new annual record
- Net cash provided by operating activities of \$107.7 million

Net sales in the fourth quarter of 2023 were \$145.6 million compared to \$169.9 million in the fourth quarter of 2022, a 14% decrease due primarily to a reduction in communication product sales as the market remains soft and customers destock inventory positions. Foreign currency translation increased fourth quarter 2023 net sales by \$2.9 million.

Net income for the quarter ended December 31, 2023 was \$6.3 million, or \$1.29 per diluted share, compared to \$16.5 million, or \$3.28 per diluted share, for the comparable period in 2022. The fourth quarter of 2023 net income was impacted by decreased gross profit from lower net sales, partially offset by selling price increases and a lower effective tax rate for the period. Other discrete factors contributing to the decline in quarterly net income included \$2.3 million of outsized foreign currency transaction losses, primarily due to the significant devaluation of the Argentine Peso and customerspecific charges of \$3.5 million to increase the allowance for doubtful accounts and the excess and obsolete inventory reserve mainly caused by the downturn in communications end market sales. Gross profit as a percentage of net sales was 33.0% for the fourth quarter of 2023.

Net sales for the full year 2023 were \$669.7 million, compared to \$637.0 million in 2022. This is the fifth consecutive year of record net sales and represents a 5% increase versus prior year. Foreign currency translation increased full year 2023 net sales by \$0.4 million.

Net income for the year ended December 31, 2023 was \$63.3 million, or \$12.68 per diluted share, compared to \$54.4 million, or \$10.88 per diluted share in 2022. Net income for the full year 2023 was favorably impacted by the increase in margin on incremental sales as well as the full year benefit of price increases which helped offset inflationary increases of raw material and freight costs. Gross profit as a percentage of net sales was 35.1% for 2023.

Rob Ruhlman, Executive Chairman, said, "Thanks to a strong first half of 2023, we experienced a fifth consecutive year of record annual net sales and fourth consecutive year of earnings per share growth. The second half of the year was impacted by the pullback in spending among communication network

operators as well as customer destocking efforts to reduce elevated inventory levels. We expect the significance and diversity of our international operations to help offset some of the pullback in communication product sales largely impacting our USA results. We remain excited about the future prospects for both our communications and energy product end markets and remain well positioned to achieve growth thanks to operational improvements, new product introductions, and production capacity added over the last three years as well as the significant government stimulus programs that are expected to benefit our core markets. Our continued commitment to manufacturing in the USA positions us well for the Build America, Buy America Act ("BABAA") requirements of the Broadband Equity, Access, and Deployment ("BEAD") Program, which we expect to drive increased demand for communications products in late 2024/early 2025. We continue to invest capital in our global facilities as necessary and we continue to seek the right opportunities for inorganic growth. We are fully committed to providing our customers with the high-quality products and service they have come to expect from our dedicated workforce."
