COYOTE® MPC

The **COYOTE MPC (Multi-Purpose Closure)** is constructed of durable, UV stabilized, flame retardant polymer to permit interior or exterior applications. Eight cable entrance ports around the exterior accept an easy-to-use grommet system and standard commercially available fittings. The closure's interior can be configured to address slack storage, splicing, cross-connect, hardened adapter applications or any combination. Pre-terminated configurations are also available to minimize the amount of labor required during installation.

FEATURES AND BENEFITS

• Interior grid hole pattern allows custom organization of various components

• Offers NEMA4 performance

• Constructed with UL94-5VA rated polymer compounds, to provide the highest flame resistant rating

• Flexible grommet sealing technology supports a wide range of flat and round cable profiles

• Integrated silicone foam rubber gasket designed to eliminate water entry

• 8 cable entrance ports around closure exterior
