

## COYOTE® SILICONE GROMMETS

**COYOTE Silicone Grommets** are manufactured from a weather-resistant silicone material that is designed to ensure a tight seal around various cable diameters and styles. They are available in single hole and multi-hole designs which can be slit to accommodate terminated or expressed cables without degrading the integrity of the seal. COYOTE Silicone Grommets are interchangeable throughout all of the COYOTE fiber optic closures and provide the ability for these closures to be re-entered and re-used.

### FEATURES AND BENEFITS

- Single and multi-hole designs available to cover cable diameter ranges from 0.093" – 1.25" (2.4 – 31.8 mm)
