

COYOTE® STP PRO SERIES AERIAL HANGER BRACKET

INSTALLATION INSTRUCTIONS

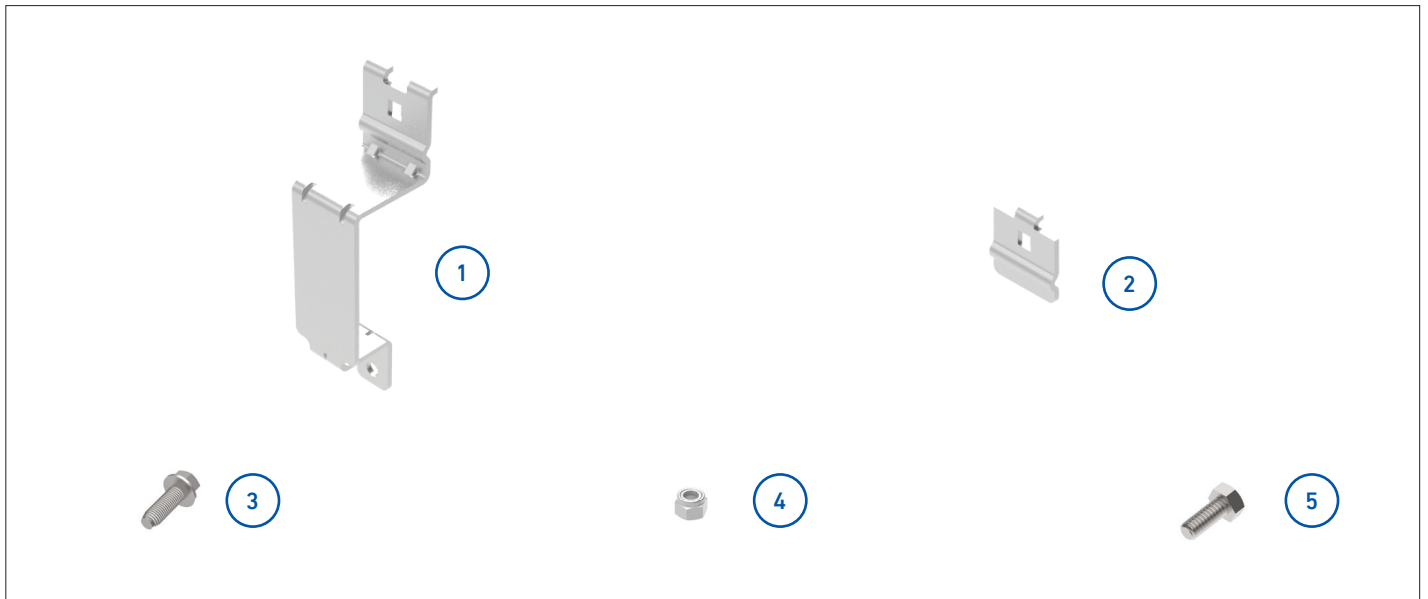

IMPORTANT SAFETY INFORMATION

READ AND COMPLETELY UNDERSTAND ALL INSTRUCTIONS BEFORE INSTALLING PRODUCT. FAILURE TO FOLLOW THESE INSTRUCTIONS MAY RESULT IN PERSONAL INJURY OR DEATH.

This product is intended for use by trained technicians only. This product should not be used by anyone who is not familiar with and not trained to use it. When working in the area of energized lines, extra care should be taken to prevent accidental electrical contact. Be sure to wear proper safety equipment per your company protocol. These instructions are not intended to supersede any company construction or safety standards. These instructions are offered only to illustrate safe installation for the individual. PLP products are intended for the specified application only. Do not modify this product under any circumstances. Do not reuse or reinstall any PLP product unless that capability is expressly indicated in the product's Installation Instructions. For proper performance and personal safety, be sure to select the proper PLP product before installation. PLP products are precision devices. To ensure proper performance, they should be stored in cartons under cover and handled carefully.

PACKAGE COMPONENTS

1. Aerial Hanger Bracket part A (2)
2. Aerial Hanger Bracket part B (2)
3. Self-Tapping Screw (2)
4. Lock Nut (2)
5. Bolt (2)

Tools Required:

- 3/8" & 7/16" Can Wrench or Socket Wrench

AERIAL MOUNTING OPTION

- 1 Install the Self-Tapping Screws to secure the Aerial Hanger Bracket to the posts of the base. Loosen the nut holding the clamps together enough to allow the messenger strand to slide in between the grooves.

NOTE: Installation instructions shown using STP-XL. Installation method is the same across the STP Pro line.

- 2 Install the messenger strand into the grooves of the bracket and tighten the nut.
