Manchester is forecast to see the highest GVA growth amongst other large UK cities over the next decade, as predicted by JLL, with new build homes experiencing a staggering 25.7% growth over the past five years.

Widely regarded as a 'must-live' city, Manchester appeals to people globally. Due to this consistent growth in popularity, rents in Manchester have soared by almost 46% over the past five years, offering lucrative returns for investors.

The demand for city centre living has increased significantly since 2020, with a multitude of young professionals eager to experience city life and enjoy the cultural opportunities a city like Manchester can offer.
