

PUBLIC REVIEW

The Standards Council of Canada (SCC) requires all proposed standards be made available for a 60-day public review during the development process, allowing input from interested parties.

These documents are issued for the purpose of generating critical review and comment. The application of material contained in these documents for other purposes, such as its use in judging a product for compliance with current requirements or determining future product needs, would be premature and could be misleading.

To view these documents and submit your comments, create a [CSDS](#) user account and [Follow the Standard\(s\)](#) or contact the project manager listed below.

Have questions, need help? [Contact us](#)

ANSI/CAN/UL/ULC 842, Standard for Safety for Valves for Flammable and Combustible Liquids

The proposed Revision of the Eleventh Edition of ANSI/CAN/UL/ULC 842, Standard for Valves for Flammable and Combustible Liquids, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at jeffrey.prusko@ul.org.

Date Posted: May 23, 2025
Comments Due: July 22, 2025

ANSI/CAN/UL/ULC 180, Standard for Safety for Combustible Liquid Tank Accessories

The proposed Revision of the 9th Edition of UL/ULC 180, Standard for Combustible Liquid Tank Accessories, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Johnny.hall@ul.org.

Date Posted: May 23, 2025
Comments Due: July 22, 2025

ANSI/CAN/UL/ULC 1316, Standard for Safety for Special Purpose Aboveground Tank for Specific Flammable or Combustible Liquids

The proposed Revision of the 3rd Edition of 1316, Standard for Special Purpose Aboveground Tank for Specific Flammable or Combustible Liquids, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at johnny.hall@ul.org.

Date Posted: May 23, 2025
Comments Due: July 22, 2025

ANSI/CAN/UL 583, Standard for Safety for Electric-Battery-Powered Industrial Trucks

The proposed Revision of the 11th Edition of ANSI/CAN/UL 583, Standard for Safety for Electric-Battery-Powered Industrial Trucks, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at shannon.henesy@ul.org.

Date Posted: May 22, 2025

Comments Due: July 21, 2025

CAN/ULC 129, Standard for Safety for Test for Smoulder Resistance of Insulation (Basket Method)

The proposed Reaffirmation of the Fourth Edition of ULC 129, Standard for Test for Smoulder Resistance of Insulation (Basket Method), has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Raji.Ghandour@ul.org.

Date Posted: May 22, 2025

Comments Due: July 22, 2025

CAN/ULC 106, Standard for Safety for Fire Tests of Window and Glass Block Assemblies

The proposed Reaffirmation of the Third Edition of ULC 106, Standard for Fire Tests of Window and Glass Block Assemblies, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Raji.Ghandour@ul.org.

Date Posted: May 21, 2025

Comments Due: July 21, 2025

CAN/ULC 104, Standard for Safety for Fire Tests of Door Assemblies

The proposed Reaffirmation of the Fourth Edition of ULC 104, Standard for Fire Tests of Door Assemblies, as a National Standard of Canada, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Raji.Ghandour@ul.org.

Date Posted: May 21, 2025

Comments Due: July 21, 2025

CAN/ULC 743.2, Standard for Safety for Thermal Insulation – Low Pressure Applied Two Component Spray Polyurethane Foam, Part 2: Installation

The proposed Reaffirmation of the First Edition of ULC 743.2, Standard for Thermal Insulation – Low Pressure Applied Two Component Spray Polyurethane Foam, Part 2: Installation, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.Weeks@ul.org.

Date Posted: May 16, 2025
Comments Due: July 15, 2025

ANSI/CAN/UL/ULC 1369, Standard for Safety for Aboveground Piping for Flammable and Combustible Liquids

The proposed Revision of the First Edition of ANSI/CAN/UL/ULC 1369, Standard for Aboveground Piping for Flammable and Combustible Liquids, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at jeffrey.prusko@ul.org.

Date Posted: May 16, 2025
Comments Due: July 15, 2025

ANSI/CAN/UL 1446, Standard for Safety for Systems of Insulating Materials - General

The proposed Reaffirmation of the 8th Edition of 1446, Standard for Safety for Systems of Insulating Materials - General, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at aaron.zheng@ul.org.

Date Posted: May 9, 2025
Comments Due: July 8, 2025

ANSI/CAN/UL 9595, Standard for Safety for Standard for Factory Follow-Up on Personal Flotation Devices (PFDs)

The proposed Revision of the 1st Edition of UL 9595, Standard for Factory Follow-Up on Personal Flotation Devices (PFDs), has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Jacob.Stewart@ul.org.

Date Posted: May 8, 2025
Comments Due: July 7, 2025

ANSI/CAN/UL/ULC 30, Standard for Safety for Metallic and Nonmetallic Safety Cans for Flammable and Combustible Liquids

The proposed revision of the Tenth Edition of UL/ULC 30, Standard for Metallic and Nonmetallic Safety Cans for Flammable and Combustible Liquids, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at sabrina.khrebto@ul.org.

Date Posted: May 8, 2025
Comments Due: July 7, 2025

CAN/ULC 548, Standard for Devices and Accessories for Water Type Extinguishing Systems

The proposed Reaffirmation of the 4th Edition of ULC 548, Standard for Devices and Accessories for Water Type Extinguishing Systems, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at raji.ghandour@ul.org.

Date Posted: May 5, 2025
Comments Due: July 4, 2025

ANSI/CAN/UL 5840, Standard for Safety for Electrical Systems of Battery Powered Aviation Ground Support Equipment

The proposed Revision of the First Edition of UL 5840, Standard for Electrical Systems of Battery Powered Aviation Ground Support Equipment, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Madison.Lee@ul.org.

Date Posted: May 2, 2025
Comments Due: July 1, 2025

ANSI/CAN/UL/ULC 9990, Standard for Safety for Information and Communication Technology (ICT) Power Cables

The proposed Revision of UL 9990, Standard for Information and Communication Technology (ICT) Power Cables, has been submitted to the ULSE Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at hilal.elmisilmani@ul.org.

Date Posted: May 01, 2025
Comments Due: June 30, 2025

ANSI/CAN/UL 9540A, Standard for Safety for Test Method for Evaluating Thermal Runaway Fire Propagation in Battery Energy Storage Systems

The proposed Revision of the Fifth Edition of ANSI/CAN/UL 9540A, Standard for Test Method for Evaluating Thermal Runaway Fire Propagation in Battery Energy Storage Systems, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Megan.M.VanHeirsele@ul.org.

Date Posted: April 28, 2025

Comments Due: June 27, 2025

ANSI/CAN/UL/ULC 2443, Standard for Safety for Flexible Sprinkler Hose with Fittings for Fire Protection Service

The proposed Revision of the Fifth Edition of UL/ULC 2443, Standard for Flexible Sprinkler Hose with Fittings for Fire Protection Service, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.

Date Posted: April 25, 2025
Comments Due: June 24, 2025

ANSI/CAN/UL/ULC 2152, Standard for Safety for Special Purpose Nonmetallic Containers and Tanks for Specific Combustible or Noncombustible Liquids

The proposed New Edition of ANSI/CAN/UL/ULC 2152, Standard for Special Purpose Nonmetallic Containers and Tanks for Specific Combustible or Noncombustible Liquids, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at johnny.hall@ul.org.

Date Posted: April 25, 2025
Comments Due: June 24, 2025

ANSI/CAN/UL/ULC 1395, Standard for Safety for Transients Test Method

The proposed Revision of the First Edition of ANSI/CAN/UL/ULC 1395, Standard for Transients Test Method, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.

Date Posted: April 25, 2025
Comments Due: June 24, 2025

ANSI/CAN/UL 448, Standard for Safety for Centrifugal Stationary Pumps for Fire-Protection Service

The proposed Revision of the Twelfth Edition of UL 448, Standard for Centrifugal Stationary Pumps for Fire-Protection Service, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at griff.edwards@ul.org.

Date Posted: April 24, 2025
Comments Due: June 23, 2025

ANSI/CAN/UL 1971, Standard for Safety for Tactile Signaling Devices for Emergency and Fire Alarm Signaling Systems

The proposed New Edition of the 4th Edition of ANSI/CAN/UL 1971, Standard for Tactile Signaling Devices for Emergency and Fire Alarm Signaling Systems, has been submitted to the ULSE Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Anna.Roessing-zewe@ul.org.

Date Posted: April 17, 2025
Comments Due: June 16, 2025

ANSI/CAN/UL 2684, Standard for Video and Thermal Image Detectors for Fire Alarm Systems

The proposed Revision of the 1st Edition of UL 2684, Standard for Standard for Video and Thermal Image Detectors for Fire Alarm Systems, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at grayson.flake@ul.org.

Date Posted: April 18, 2025
Comments Due: June 17, 2025

ANSI/CAN/UL 12402-9, Standard for Personal Flotation Devices – Part 9: Test Methods

The proposed Revision of the 1st Edition of UL 12402-9, Standard for Personal Flotation Devices – Part 9: Test Methods, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Jacob.Stewart@ul.org.

Date Posted: April 10, 2025
Comments Due: June 9, 2025

ANSI/CAN/UL 203, Standard for Pipe Hanger Equipment for Fire Protection Service

The proposed revision of the Eleventh Edition of ANSI/CAN/UL 203, Standard for Pipe Hanger Equipment for Fire Protection Service, has been submitted to the ULSE Technical Committee for approval by ballot and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at lauren.valentino@ul.org.

Date Posted: April 4, 2025
Comments Due: June 3, 2025

ANSI/CAN/UL 969A, Standard for Safety for Standard for Marking and Labeling Systems – Flag Labels, Flag Tags, Wrap-Around Labels and Related Products

The proposed Reaffirmation of the 1st Edition of 969A, Standard for Marking and Labeling Systems – Flag Labels, Flag Tags, Wrap-Around Labels and Related Products, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Olivia.lawson@ul.org.

Date Posted: April 1, 2025

Comments Due: June 1, 2025

CAN/ULC 554, Standard for Safety for Water Based Agent Fire Extinguishers

The proposed Revision of the Third Edition of ULC 554, Standard for Water Based Agent Fire Extinguishers, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.

Date Posted: March 28, 2025

Comments Due: May 27, 2025

CAN/ULC 503, Standard for Safety for Carbon-Dioxide Fire Extinguishers

The proposed Revision of the Fourth Edition of ULC 503, Standard for Carbon-Dioxide Fire Extinguishers, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.

Date Posted: March 28, 2025

Comments Due: May 27, 2025

CAN/ULC 566, Standard for Safety for Halocarbon Clean Agent Fire Extinguishers

The proposed Revision of the Third Edition of ULC 566, Standard for Halocarbon Clean Agent Fire Extinguishers, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.

Date Posted: March 28, 2025

Comments Due: May 27, 2025

CAN/ULC 507, Standard for Safety for Water Fire Extinguishers

The proposed Revision of the Eighth Edition of CAN/ULC 507, Standard for Water Fire Extinguishers, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.

Date Posted: March 28, 2025
Comments Due: May 27, 2025

ANSI/CAN/UL/ULC 338, Standard for Safety for Vehicle Theft Deterrent Equipment and Systems: Electronic Immobilization System and Aftermarket Installation Requirements

The proposed New Edition of the Third Edition of ANSI/CAN/UL/ULC 338, Standard for Vehicle Theft Deterrent Equipment and Systems: Electronic Immobilization System and Aftermarket Installation Requirements, has been submitted to the Technical Committee for approval and to other interested parties for comment. For questions on submitting comments, please email the Project Manager of the Technical Committee at Nicolette.A.Weeks@ul.org.
