

# PUBLIC REVIEW

The Standards Council of Canada (SCC) requires all proposed standards be made available for a 60-day public review during the development process, allowing input from interested parties.

These documents are issued for the purpose of generating critical review and comment. The application of material contained in these documents for other purposes, such as its use in judging a product for compliance with current requirements or determining future product needs, would be premature and could be misleading.

To view these documents and submit your comments, create a [CSDS](#) user account and [Follow the Standard\(s\)](#) or contact the project manager listed below.
