

Ultra Entry

General Information

Ultra Entry™ is heat welded flexible extruded PVC with 86% pre-consumer and 1.4% post-consumer recycled content when produced in black, and 27.5% pre-consumer and 1.4% post-consumer recycled content when produced in gray. Ultra Entry contains 0% post-industrial recycled content.

One piece welded construction ensures long, maintenance free life.

Roll Size	3 ft. x 40 ft. and 4 ft. x 40 ft.		
Overall Thickness	5/8" (including inserts)		
Construction	Open construction vinyl grid with nylon fiber inserts		
Weight	1.7 lbs. / sq. ft.		
Surface	Deeply etched textured surface with alternating carpet strips providing slip resistant properties		
Standard Insert	100% premium polyamide nylon fibers (6.6)		
Installation	Loose lay in recessed subfloor		
Performance	Standard	Requirements	Result
Low Emitting Material	CDPH v1.2 (2017) CA01350	<0.5 mg/m³	Pass / Certified
Critical Radiant Flux	ASTM E648	Class 1 ≥ 0.45 w/cm²	Pass / Class 1
Smoke Optical Density	ASTM E662	≤ 450	Pass
Slip	ASTM C1028	None	0.97 dry / 1.01 wet
