700 SERIES TPR

700 Series is a Thermoplastic Rubber (TPR) Wall Base. Composed of a resilient rubber-vinyl blend, 700 Series provides good flexibility while maintaining dimensional stability. Formulated with Bioplasticizer and no post-consumer recycled content is used.

PINNACLE SBR

No matter what the project, 100% PVC free Roppe Pinnacle rubber base is ideal for the job. Pinnacle is the professional's choice, because this SBR rubber base is highly durable and extremely flexible, allowing for easy installation around columns, corners and architectural curves.

CONTOURS

Simplicity 8' | Profile #00 | Stocked in White
Contours Profiled Wall Base System® offers the look of wood base with the enhanced properties of resilient base. Contours resists chipping, absorbing moisture and splintering while eliminating the costly tasks of nailing, filling and finishing traditional wood trim.

SCHLUTER PROFILES

Kent stocking profiles listed below, available in assorted dimensions and colors. Limited stocking programs available at all T&A Supply branches.

JOLLY

Schluter®-JOLLY features a 90° angle and is a finishing and edge-protection profile for the outside corners and other tile edges in wall applications. The vertical wall section of the profile provides a decorative finish and protects adjacent tiles. Its 90° angle creates a clean, flush look on wall corner installations, and the joint spacers on both sides of the profile ensure consistent grout joints and perfect symmetry.

Stocked Colors:

DECO

Schluter®-DECO is designed to provide decorative lines within tile coverings and edge protection at transitions from tile coverings to other same-height surface coverings, such as wood or carpet.

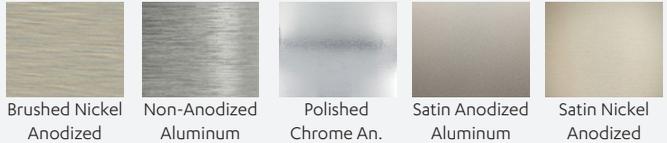

Stocked Color:

DILEX

Schluter®-DILEX-AHK is a cove-shaped profile with a single anchoring leg that provides an attractive, clean, and maintenance-free alternative for inside wall corners, and countertop/backsplash and floor/wall transitions.

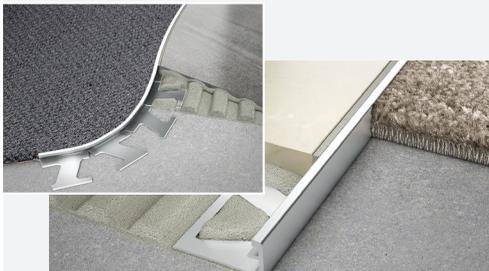

Stocked Colors:

RENO U & RENO TK

Schluter®-RENO is designed to protect tile edges and provide a smooth transition between tile coverings and floor coverings at lower elevations by abutting both surfaces.

Stocked Colors:

SCHIENE

Schluter®-SCHIENE is an edging profile featuring an 87° angle designed to provide effective and attractive edge protection for floor tile coverings that are typically bordered by carpet, at expansion joints, or as decorative edging for stairs. The profile offers a discreet, minimum reveal which is ideal for creating elegant transitions between floor coverings.

Stocked Colors:

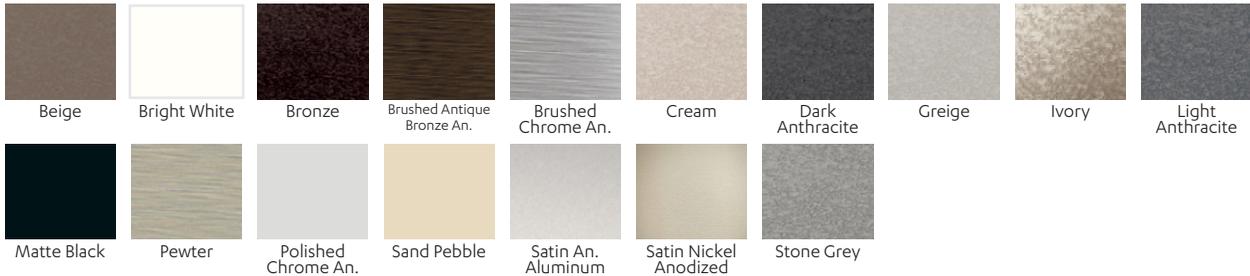

SCHLUTER PROFILES

Jolly Stocked Colors Continued:

RONDEC

Schluter®-RONDEC is a finishing and edge-protection profile for tiled edges and outside corners of tiled surfaces. The reveal of the profile forms a symmetrically rounded corner along the surface edge.

QUADEC

Schluter®-DILEX-AHK is a cove-shaped profile with a single anchoring leg that provides an attractive, clean, and maintenance-free alternative for inside wall corners, and countertop/backsplash and floor/wall transitions.
