EASYFIELD: THE ULTIMATE IN DURABILITY FOR A PORTABLE FIELD

"I was blown away how fast they were able to put down the pieces. It took 7 hours to install, including the cuts around the edges. The pieces in the middle could be done in minutes. The edges take a little more time and accuracy as you do not want anything to shift while people are running around. Taking the turf out was easy. We had a hockey team help us and we were done in 3 hours, including stacking and taking the turf away for storage."
