

A modern living room with a high ceiling featuring a large skylight and a window. The ceiling is finished with dark wood paneling. Two large, woven, conical pendant lights hang from the ceiling. A guitar is mounted on the wall, and another guitar is on a stand. A yellow sofa with colorful pillows is visible. A framed picture of a vinyl record hangs on the wall. The room is bright and airy, with natural light coming from the skylight and window.

VELUX®

Solar Powered Fresh Air Skylight Systems

Deck-Mounted and Curb-Mounted

Why skylights?

A Must-Have for Any Home

Homes that are full of light are homes full of life. Before browsing paint colors, fabric swatches, or furniture catalogs for inspiration, look up. Your ceiling is an impactful design space with the power to transform any room in your home with skylights.

Daylight

Daylight is powerful. It redesigns the look and feel of our home every hour of the day. It balances our circadian rhythm, improves our general health and well-being, decreases our dependency on electricity, and gives functionality back to our space. Skylights bring abundant natural light into your home, giving you and your family access to these benefits daily.

Fresh Air

The VELUX Solar Powered Fresh Air Skylight opens with the touch of a button to fill your space with cool, fresh air. In addition to brightening your space with natural light, these solar venting skylights can reduce your dependency on central air and electricity to refresh your entire home.

Ambient Light

Light reflects off walls and floors to give your space a soft, glowing look and feel.

Privacy

Your skylight looks up, protecting your home's privacy down below.

Lower Electric Bill

Turn off more lights in your home by soaking up free light from above.

Unique Design

Add the finishing touch by pairing your skylight with designer shades.

Ventilation

Opening your skylight helps refresh your entire home with fresh air.

Rain Detection

With the first drop of rain, your skylight automatically closes itself for you.

Meet your VELUX Skylight System.

The Dramatically Transformative Skylight

Watch your space fill with natural daylight and fresh, clean air with VELUX Solar Powered "Fresh Air" Skylights.

Climate Control

- 1 Glass Skylight**
The base of the VELUX Skylight System is our world-famous skylight! The solar-powered venting skylight uses an integrated solar panel to power the skylight, which you can open with the touch of a button to refresh your whole home.
- 5 Rain Sensor**
Solar venting Skylight Systems feature an integrated rain sensor to close the skylight automatically at the first signs of inclement weather.

2

Solar-Powered Shade

The included room-darkening skylight shade is solar-powered and offers total light control, increasing the Skylight System's energy performance up to 45% (actual percentage varies by skylight model and size).

3

Remote Controls

Pre-paired remote controls for shades are included in all Skylight Systems for easy set-up. Solar venting Skylight Systems also include remotes to open and close the skylights.

4

Standard Safety Glass

Our Standard Safety Glass is a laminated glass that is safe for out-of-reach applications. It is double-paned with an argon fill to help reduce unwanted outside noise while providing a clear view of the skies above.

6

Insect Screen

Each venting Skylight System includes an insect screen to prevent bugs and debris from entering your home through an open skylight.

7

Weathertight Guarantee

VELUX flashing is required to create a weathertight seal around deck- and curb-mount Skylight Systems, as well as to qualify for our 10-year installation warranty.

Flashing kits packaged and sold separately.

Solar Powered Fresh Air Skylight Systems

Deck-Mounted and Curb-Mounted

Deck-Mounted - VSS

Mounts directly to the roof deck

Curb-Mounted - VCS

Mounts directly to a site-built curb

Benefits

- Features a solar panel that captures daylight for the battery-powered control system
- Pre-installed solar-powered, white, room-darkening shades for total light and climate control.
- Remotes and insect screen included with skylight
- Rain sensors automatically close the skylight if inclement weather approaches
- VELUX installation makes replacing a fixed or manual skylight with a solar powered one fast and easy

ENERGY STAR certified products are the most straightforward way to help meet energy codes.

Most VELUX residential products are ENERGY STAR certified. By specifying or using ENERGY STAR certified products, architects and builders can use windows and skylights to bring much needed daylight and fresh air inside, creating more attractive buildings and livable spaces while still meeting the local energy codes.

Safest Glass to Live Under

VELUX Standard Safety Glass

When selecting a VELUX Solar Powered Fresh Air Skylight System, rest assured your skylight comes with our most-recommended, top-rated glass. Our Standard Safety Glass is a state-of-the-art, energy-conserving LowE glass, designed to keep your home warmer in the winter and cooler in the summer. The dual pane and argon fill also help to reduce unwanted outside noise so you can enjoy your skylight in peace.

The VELUX Skylight Guarantee

Three patented layers of water protection work together to ensure your VELUX skylight will hold up in all weather conditions.

Deck-Mounted

Curb-Mounted

1 Pre-Attached Seal

Pre-attached deck seal (deck-mounted) or gasket (curb-mounted) provides a tight seal for leak-proof installation.

2 Adhesive Underlayment

Adhesive underlayment for secondary water protection against the harshest weather conditions.

3 Engineered Flashing

Engineered flashing for easy installation and primary water protection.

Complete light control.

Solar-Powered Shade Pairing

VELUX shades allow you to control the light, enhance your decor, and improve energy efficiency.

VELUX Skylight Systems include a **pre-installed Room Darkening, Double-Pleated Solar Shade** for the very best skylight experience.
