Ultra-Premium Colors

Our full array of beautiful siding colors makes it easy to let your personal taste shine through.

To help get the creative process started, stand back and take a fresh “first look” at your home, from the rooftop all the way down to the front door. Then consider these few simple tips to create your custom design.

1. Unless you plan on installing a new roof, select a color that matches the roof shingles of your house.
2. Decide the level of contrast you want between the siding and trim. As a rule of thumb, pick your siding color first. Less contrast between the siding and trim unifies a home’s architectural elements, while greater contrast emphasizes areas of interest and detail.
