

BLINDS-BETWEEN-THE-GLASS

SELECT 4000 SERIES PRODUCTS

4000 Series Vinyl Window

Shown with white Blinds-Between-the-Glass

Select Window World® 4000 Series products are available with optional mini Blinds-Between-the-Glass which let you control exactly how much light you want, while also allowing for hassle-free glass cleaning and smooth window or door operation.

Stylish, Energy-Efficient, and Safe.

Window World® Blinds-Between-the-Glass are a sleek solution for controlling light and privacy which also protects against solar heat gain and damaging UV rays that can fade fabrics and floors in your home. And with blinds-between-the-glass, you don't have to worry about the blinds falling or small children or animals becoming entangled in them. They're stylish, energy-efficient, and safe. Blinds are available on our 4000 Series double-hung, casement, picture window, and patio door products, providing options for anyone.

BLINDS-BETWEEN-THE-GLASS

SELECT 4000 SERIES PRODUCTS

Product Features:

The unique Blinds-Between-the-Glass option brought to you by Blink® offers a quality solution for window and patio door treatments. The blinds are sealed between the glass, offering a longer service life than standard blinds while also eliminating the need for dusting. Engineered for ease of use, the internal design makes raising and lowering the blinds simple and intuitive and eliminates the possibility of blinds obstructing product operation.

- 1 Easy-to-use operators make it simple to raise, lower, and tilt the blinds for optimal sunlight.
- 2 Self-leveling bottom rail re-levels if blinds become unbalanced.
- 3 Blinds remain virtually dust-free in a sealed insulating glass unit and integral blinds remove the risk of children or pets getting entangled in cords.

Blind Colors:

Technology:

- 4 No-slip gear belt for smooth lift and tilt operation of the blind.
- 5 Single cord-winding shaft provides improved “stack,” which prevents the blinds from coming in contact with the glass surface.

Available in tilt only and raise, lower tilt configurations for windows only. Blinds available on select configurations using a standard 6'8" height. Size restrictions apply on windows.

Tested for Durability:

- Rigorously tested at 10,000+ cycles, far exceeding industry standard of 3,500 cycles.
- Durable components withstand long-term operation of window or door.
- Integrated mini blinds are backed by an industry-leading 10-year limited warranty for added peace of mind.

Energy-Saving Glass Package:

Window World® SolarZone® insulated glass packages help you save on heating and cooling costs while also keeping your home more comfortable. In warm weather, SolarZone reduces solar heat gain, minimizes interior glare, and lowers inside glass temperature to save energy and keep you cool. In cold weather, SolarZone helps to control the heat inside your home by providing thermal protection that keeps the inside glass panel warmer.

4000 Series Patio Door with Blinds-Between-the-Glass. Blinds in patio doors available in white only.

4000 Series window sash with Blinds-Between-the-Glass.
