PERFORMANCE G8

TRIM COIL

Performance G8 Trim Coil
in Glacier White.

Performance G8 Trim Coil is light, stain resistant, and easy to maintain. This expertly crafted trim coil protects the hard-to-reach areas of your home, while enhancing the appearance with a pristine finish.

Protect Your Home's Exterior

Choosing the best trim coil color for your exterior design is easy and convenient. Used by professional installers to create custom trim components that complement your Window World Vinyl Siding and Windows, Performance G8 delivers outstanding resistance to wear and ensures a durable, low-maintenance finish that will beautify your home for years. Choose from 24 colors infused with rich hues for timeless style. And best of all, every color is formulated to coordinate with Window World Vinyl Siding products as part of our color matching system.

Superior Beauty and Carefree Upkeep

When we started out to develop a better trim coil, we didn't just want to improve its physical performance. We wanted to develop an exceptional aesthetic - one with a low-gloss finish that would better complement the gloss and texture of both vinyl and painted wood. Distinguished for its exceptional quality and appearance, Performance G8 trim coil delivers every "must-have" for durability, custom style, and easy-care maintenance.

See It for Yourself!

Each trim coil surface was subjected to a Nickel Marring Rub Test, as shown below. While both Poly and PVC coil easily mar, durable Performance G8 coil remains virtually mar-free and unchanged!

These are **unretouched photographs** of actual aluminum coil. The coin test involves rubbing the flat edge of a nickel across the surface.

Worry-Free UV Protection

The damaging effects of prolonged exposure to the sun's ultra-violet rays can cause irregular discoloration and even hinder performance of trim coil. With the unique properties of the Performance G8 finish, you get added UV protection as well as enhanced gloss retention, resistance to fading and chalking, and a consistent appearance.

Engineered to Prevent Staining

Trees, dirt, oils, salt spray, and pollution are just a few elements that can cause stains and damage your home's exterior. But the stain inhibitors in Performance G8 can help protect your home from such harsh elements. And cleaning Performance G8 is easy, too - plain water is usually adequate to remove dirt and debris. See printed warranty for more information.

A More Sustainable Choice

Aluminum's easy and infinite recyclability helps make it a more sustainable building material. The aluminum used in Alside's trim coil contains >90% pre/post-consumer recycled content and is 100% recyclable.[†]

Thirty-Year Limited Warranty

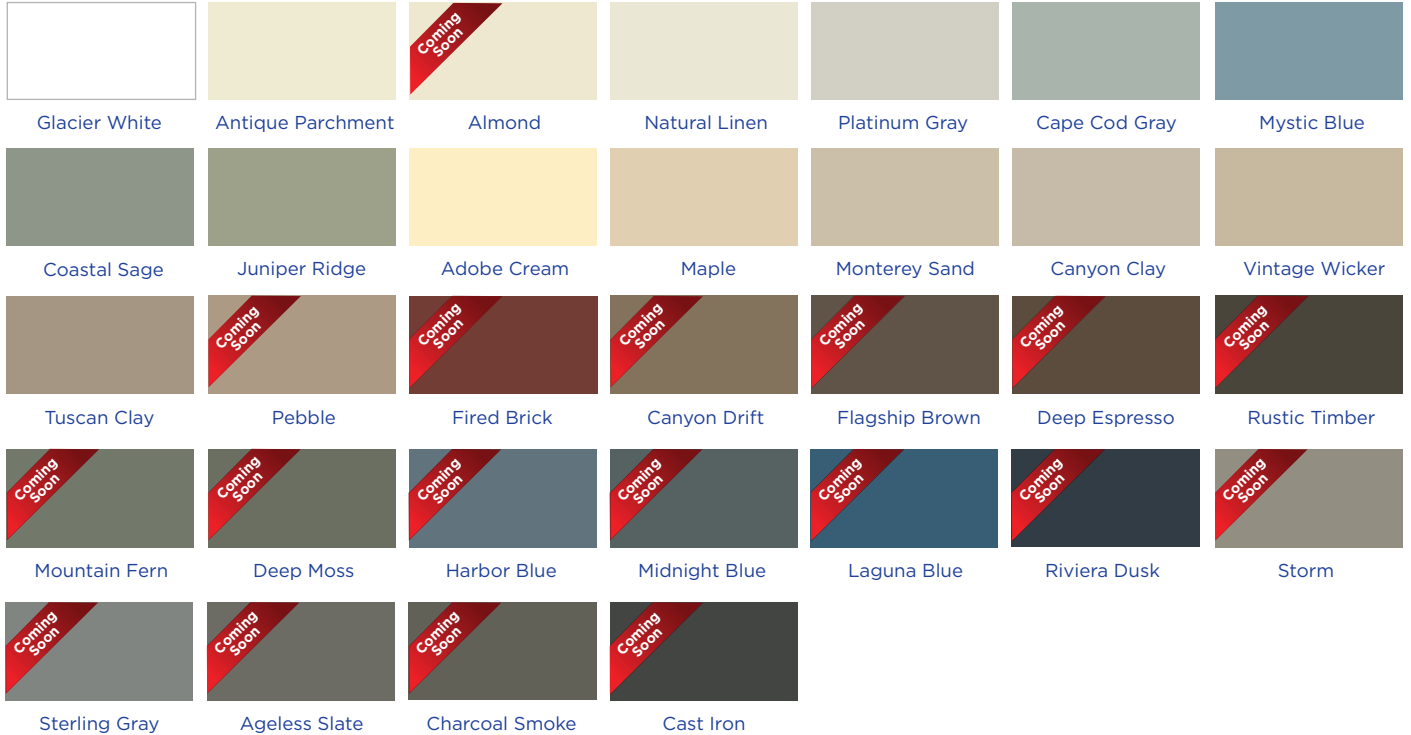

By choosing Performance G8 Trim Coil, you have selected one of the best performing trim products available. With your purchase of Performance G8 comes the added peace of mind of a Thirty-Year Limited Warranty.* See printed warranty for complete details.

Versatile Colors for Greater Design Options

From classic white to bolder hues, Performance G8 is available in a full selection of architectural colors to beautifully complement siding, windows and other elements of your exterior design.
