WHY VINYL SIDING?

Board & Batten
in Cameo

Vinyl siding is the number one cladding choice in America. In fact, more than twice as many homeowners side with vinyl over stucco, fiber cement, or wood[†].

Beautiful Style.

Window World Vinyl Siding is engineered to protect your home and keep it looking beautiful for a lifetime. With a variety of product lines to choose from, you can balance budget and features without sacrificing style.

Low Maintenance.

Made with durable, weather-resistant vinyl, our vinyl siding is easy to maintain. It won't chip, flake, or blister like painted surfaces. All it takes is an occasional cleaning with soap and water to keep it looking great.

Highly Durable.

Our vinyl siding is engineered to last and has been tested and certified to withstand harsh weather conditions. For added peace of mind, our products are backed by a Limited Lifetime Warranty*.

Affordable Installation.

Vinyl siding has the lowest total installed cost of any exterior cladding. It goes up faster and doesn't need paint. No wonder more builders and homeowners prefer it.

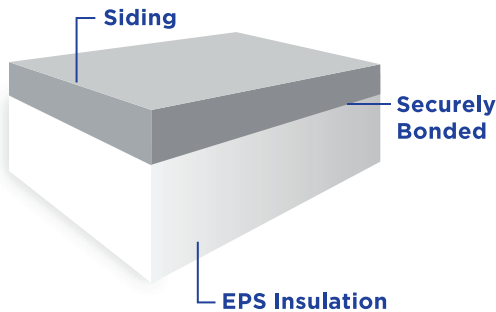

No Added Cost.

Vinyl siding has a great return on investment. With no painting or repairs to worry about, it doesn't incur added costs a few years after installation.

More Sustainable.

Vinyl siding promotes resource efficiency with limited manufacturing waste, minimal scrap during installation, and fuel-efficient transport. It also has notable environmental attributes compared to stucco or fiber cement.

[†]Source: 2013 Principia study, by Sevaris.

True Comfort.

Comfort is a thick layer of insulation surrounding your home. It's being warm in winter and cool in summer. It's keeping unwanted noise out. It's saving energy year-round. And that's exactly what Window World 6000-MS Insulated Vinyl Siding delivers. It also allows moisture to escape so that it doesn't accumulate and cause problems in walls.

Structural Integrity.

In addition to a premium .046" thickness, up to 1-1/4" of EPS insulation foam is bonded to this panel. It acts as a shock absorber to provide more impact resistance than standard vinyl siding. A fold-over nail hem and patented T-3 LOK[®] locking system create stronger, more ridged panels with tighter seams that hold strong in extreme-force winds. For virtually no seams and a cleaner, more professional look, we offer Double 6" in 16' 8" panel lengths.

Eye-Catching Curb Appeal.

When you combine rigid foam insulation and vinyl siding, you get a solid panel that looks and feels like traditional wood siding. Our 6" and 7" panels are broader than ordinary vinyl siding but still maintain their shape under pressure. Foam backing tightens the seams between the panels for attractive, straight lines and added curb appeal. Formulated with Duranyl 5000[®] to resist fading and weathering, even panels with darker colors retain their rich hues.

Peace of Mind.

Backed by a Limited Lifetime Warranty*, Window World 6000-MS Insulated Vinyl Siding offers everything you need to create a quality home exterior for years of carefree enjoyment.

4000-MS

VINYL SIDING

Quality You Can Count On.

With Window World 4000-MS Vinyl Siding, you can feel confident knowing your investment is secure. The result of careful engineering and exceptional design, this panel has a superior thickness of .046", a 3/4" panel projection, and much more. In a nutshell, Window World 4000-MS represents a level of excellence that comes from a commitment to innovative solutions and best-in-class performance.

Designed for Performance.

These panels stay straight and true because of reinforcement in three critical areas. The double-thick nail hem features a projected stop and provides a stronger anchoring surface so that siding stays firmly in place, even in extreme-force winds. Panels also stay put with a Patented T-3 LOK® - a uniquely designed lock that tightens under pressure. Combine these features with the enhanced full 3/4" panel projection and you have a premium product built to last.

Beautiful Choices.

Not only do these panels perform, they come in 35 beautiful colors and longer lengths. For a cleaner, straighter look, choose from Double 4" Traditional and Double 4-1/2" Dutch Lap available in 16' 8" length. These longer panels are ideal for larger homes and light commercial applications. Plus, our Duranyl 5000® Protection System resists fading and weathering to keep panels looking beautiful.

Peace of Mind.

Backed by a Limited Lifetime Warranty*, Window World 4000-MS Vinyl Siding offers everything you need to create a quality home exterior for years of carefree enjoyment.

Beautiful Appearance.

2000-MS Vinyl Siding delivers strength, durability, two finishes, and endless design options. With five distinct profiles and a 5/8" projection to enhance shadow lines.

Outstanding Performance.

This option features T-2 LOK® - an advanced locking system with a wider locking mechanism for more contact area. A rollover reinforced nail hem allows for easier installation and secure fastening. The 0.44" thickness ensures it will perform all year long.

Easy Maintenance.

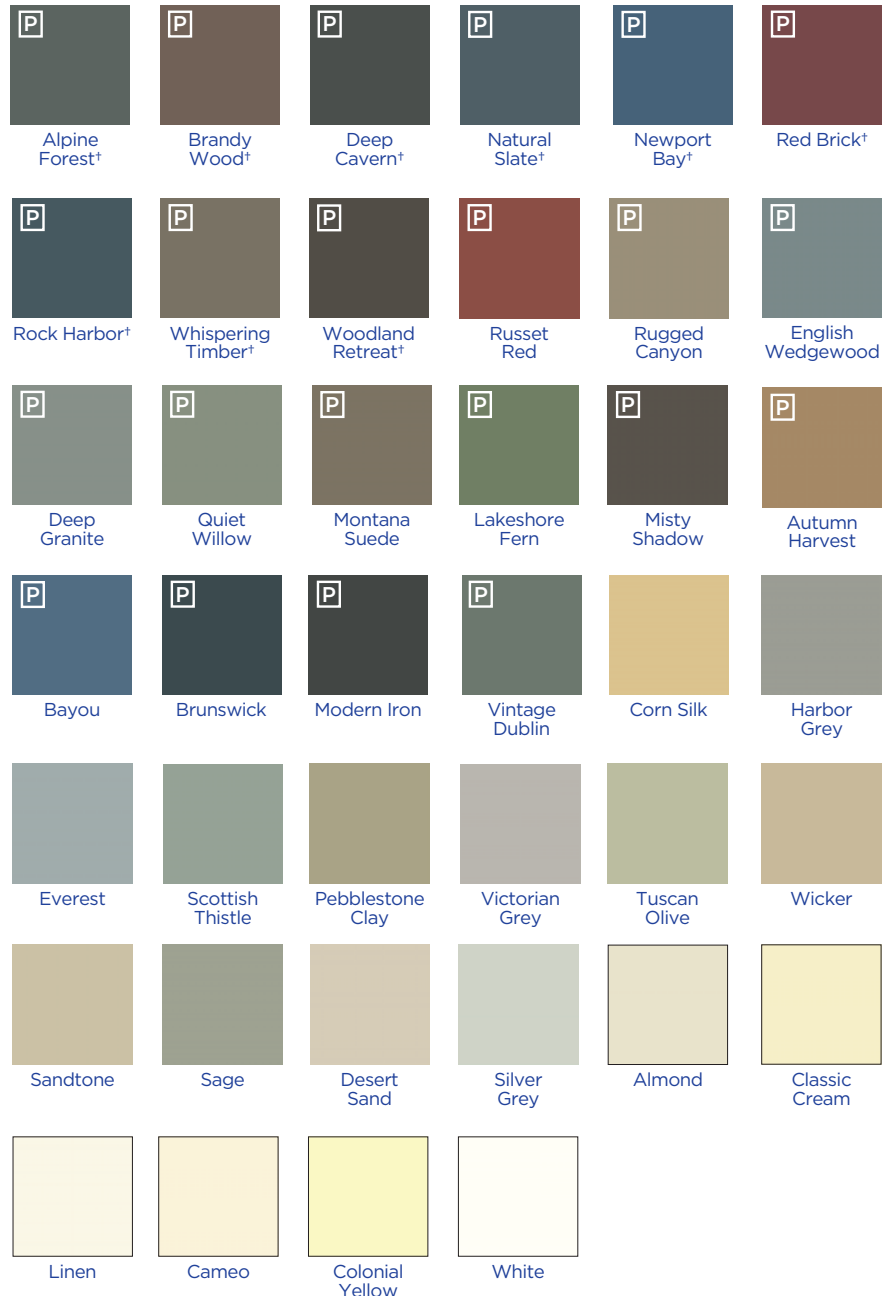

Because it doesn't crack, peel, rot, or split like wood making it virtually maintenance free. Hang-Tough™ Technology and Duranyl 5000® Protection System maximizes panel weatherability and delivers additional protection.

Peace of Mind.

Backed by a Limited Lifetime Warranty*, Window World 2000-MS Vinyl Siding offers everything you need to create a quality home exterior for years of carefree enjoyment.

1500-MS

VINYL SIDING

Double 5" Woodgrain in English Wedgewood

Durable and Dependable.

Enjoy the best of both worlds. Window World 1500-MS Vinyl Siding's functional design is enhanced with Hang-Tough™ Technology to boost resistance to cracking, impact, and thermal distortion. A thickness of .042" provides extra impact resistance. And our Snap+Lock+Hold™ Locking System and rollover reinforced nail hems keep these panels in place – even in extreme-force winds.

Classic Beauty.

It's time to enjoy the natural beauty of Window World 1500-MS. Choose from four diverse profiles and 28 beautiful colors to get the perfect look.

Easy Maintenance.

Because it doesn't crack, peel, rot, or split like wood, Window World 1500-MS won't require the same re-painting, caulking, or patching. The Duranyl 5000[®] Protection System protects panel colors against harsh elements and maximizes long-term weatherability. And the maintenance cost? That's negligible. All you need is soap and water.

Peace of Mind.

Backed by a Limited Lifetime Warranty*, Window World 1500-MS Vinyl Siding offers everything you need to create a quality home exterior for years of carefree enjoyment.

Maximum Value.

With Window World 1000-MS Vinyl Siding, you can enjoy look-of-wood beauty with a natural cedar grain texture that is easy to maintain. Practical and well-designed, Window World 1000-MS delivers enduring style with exceptional value. It's classic appeal without the lifetime of paint upkeep – a combination homeowners around the country embrace.

Exceptional Quality.

This panel features an advanced locking system and nail hem for precise, secure fastening and tighter fit. Plus, its .040" thickness and Hang-Tough™ Technology boost resistance to cracking, impact, and thermal distortion. This combination delivers added strength and stability – even in extreme-force winds.

Outstanding Appearance.

Window World 1000-MS steals the spotlight on distinction. Its 1/2" panel projection enhances the crisp shadow lines replicating the appearance of real wood siding. As an added bonus, all our rich colors reside throughout the panel, virtually eliminating the appearance of nicks and minor surface scratches. The final result delivers the quality and value you expect from Window World products.

Peace of Mind.

Backed by a Limited Lifetime Warranty*, Window World 1000-MS Vinyl Siding offers everything you need to create a quality home exterior for years of carefree enjoyment.

Distinctive Style.

A popular choice for accenting architectural features such as dormers and gables, this vertical panel can also be used in whole house applications. Available in a wide variety of colors, including darker hues, Board & Batten-MS Vinyl Siding combines advanced engineering and modern design in one high performance panel.

Advanced Engineering.

Revolutionary Hang-Tough™ Technology maximizes panel weatherability and delivers additional protection. Premium .048" thickness and a wind speed rating up to 67 PSF or 180 MPH† also ensure stronger panels with superior impact resistance and outstanding durability in all weather conditions.

Contemporary Color.

Featuring a realistic wood grain, Board & Batten-MS Vinyl Siding is available in 28 colors. These panels never need paint or stain, because unlike real wood siding, they won't crack, peel, flake, or rot.

Peace of Mind.

Backed by a Limited Lifetime Warranty*, Board & Batten-MS Vinyl Siding offers everything you need to create a quality home exterior for years of carefree enjoyment.
