

HERE Environmental Zones

Avoid specific areas and provide alerts for places that prohibit certain vehicles.

HERE Environmental Zones is data content product that indicates if an area is subject to restrictions based on environmental criteria – such as a range of vehicle classes not being able to enter a city center during certain times of the day.

The product offers polygons to enable visualization of the impacted areas on each map.

Key industry use cases

→ Transport & Logistics and Automotive

HERE Environmental Zones supports routing, navigation and map visualizations for areas that must be avoided.

Comply with local regulations

Restrictions on road segments impacted by an environmental zone are included.

Accurate routing

Routing software is able to understand the roads affected by an environmental zone designation.

Detailed and updated

Using local contacts and insights, content is created in cooperation with road authorities and local governments.

Product features

HERE Environmental Zones consists of a map component and detailed accessibility information including:

- **Environmental Zone Polygon**
- **Environmental Zone Condition**
- **Environmental Zone ID**
- **Environmental Zone XML** (look-aside file containing access details for each zone – including emission regulations, restricted vehicle types and restriction times)

Data format

- RDF
- FGDB
- NAVSTREETS
- GDF

Coverage

Available in 19 countries and territories globally

About HERE

HERE, a location data and technology platform, moves people, businesses and cities forward by harnessing the power of location. By leveraging our open platform, we empower our customers to achieve better outcomes – from helping a city manage its infrastructure or a business optimize its assets to guiding drivers to their destination safely. To learn more about HERE, including our new generation of cloud-based location platform services, visit <http://360.here.com> and www.here.com.
