

## Built in the USA. Backed by Quality.

### Proudly sourcing domestic steel and manufacturing in the USA

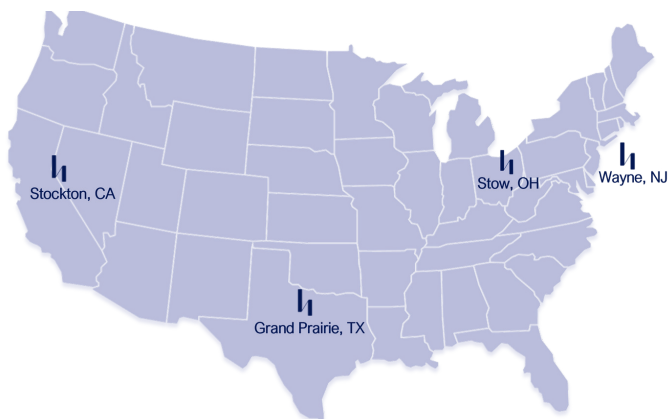

At Haydon, our H-STRUT® Metal Framing and H-BLOCK® Rooftop Supports, in addition to a selection of our associated fittings, are manufactured right here in the United States, ensuring consistent quality, faster lead times, and reduced supply chain risks. Whether you're sourcing for large-scale commercial builds or fast-paced facility upgrades, our domestically made products help stay on schedule and compliant with various federal requirements. When you choose Haydon, you're choosing American-made support that delivers.

#### Coast-to-Coast Support

- Four manufacturing and distribution locations
- In-house engineering support
- Inventory on-hand and ready to ship
- Robust welding capacity across sites
- Custom strut lengths and rooftop configurations
- Raw material and in-line quality checks

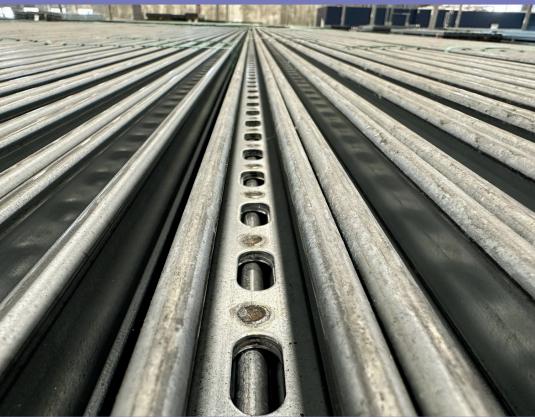

#### Compliance & Certifications

- Manufactured from high-quality, domestically sourced steel and compliant with:
  - Buy American Act
  - Build America, Buy America Act
  - American Reinvestment Recovery Act (ARRA)
  - American Iron & Steel (AIS)
- LEED Certifiable
- UL Listed Electrical Products

# Haydon's US-Made Lineup

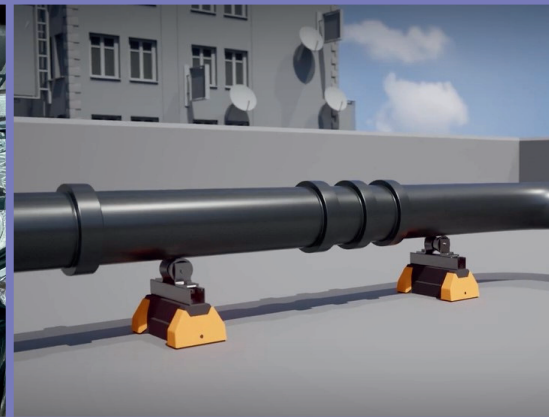

## H-Strut Metal Framing

## Select H-Strut Accessories & Fittings\*

## H-Block Rooftop Supports

### H-Strut Metal Framing

- Available in a series of sizes and welded combinations to meet any structural requirements.
- Provides a firm anchorage to the building structure or any other type of support applications including walls, ceilings and floors.
- Can also be custom cut to meet the job's specific needs to ensure the system is fit for the application while reducing labor costs.

### H-Strut Accessories & Fittings

- Works seamlessly with H-Strut Metal Framing to ensure maximum flexibility and secure connections for any support configuration.
- From brackets and braces to clamps and fasteners, each component is engineered for durability and ease of installation across a wide range of structural and mechanical applications.
- Accessories are available in a variety of finishes and sizes.

### H-Block Rooftop Supports

- Manufactured from domestically sourced, 100% recycled rubber and molded into shape. 
- UV resistant and without harsh edges, support blocks are suitable for most roofing materials, membranes, or other flat surfaces such as asphalt, rubber and concrete.
- If installation is on a smooth surface such as tile or steel, a H-Pad Slip Sheet is suggested.
