

## H-STRUT® Accessories & Fittings

Designed to work seamlessly with H-Strut Metal Framing, our full range of fittings and accessories ensures maximum flexibility and secure connections for any support configuration. From brackets and braces to clamps and fasteners, each component is engineered for durability and ease of installation across a wide range of structural and mechanical applications. Accessories are available in a variety of finishes and sizes to suit specific project requirements and environmental conditions.

### Sourcing Processes

H-Strut accessories and fittings are available in both domestic and imported offerings and include:

- Channel Nuts & Hardware
- Pipe & Conduit Clamps
- General Fittings
- Beam Clamps
- Brackets
- Electrical

### Materials & Finishes

H-Strut accessories and fittings are available in several material and finish options, depending on the product.

- Electrogalvanized (ASTM B633)
- Hot Dip Galvanized (ASTM A123 or A153)
- Zinc Trivalent Chromium (ZTC) (ASTM B633)
- Steel (Standard) (ASTM A1011 or equivalent)
- Pre-Galvanized Steel (ASTM A653 SS Grade 33, G90)
- Powder Coated

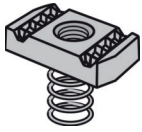

Other materials and specifications are available upon request.

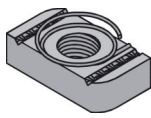

## CHANNEL NUTS/HARDWARE

Channel nuts and hardware are available in a range of sizes and options to accommodate many different applications. H-Strut channel nuts are case hardened and designed to provide a high-strength, bolted connection between products. They also aid in installation with a self-locking feature inside the channel.

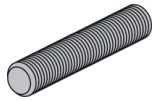

**Channel Nuts**

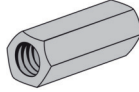

**Top Spring**

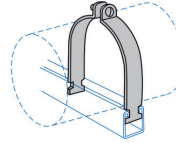

**Threaded Rod**

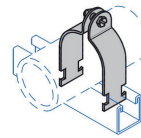

**Rod Couplers**

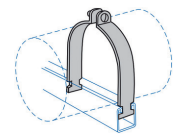

**Universal Clamp**

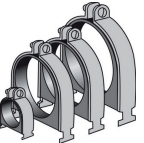

**EMT Clamps**

**Rigid Conduit Clamp**

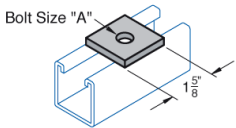

**Cushion Clamps**

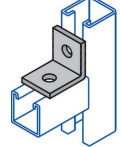

## GENERAL FITTINGS

General fittings provide structural connections with H-Strut channel. These fittings are available in several materials and finishes to accommodate various applications and are designed to be used with 1/2" channel nuts and bolts as standard.

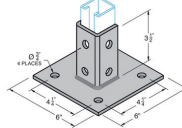

**Flat Plate**

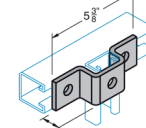

**Angle Bracket**

**Post Base**

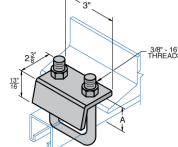

**"U" Shape Fittings**

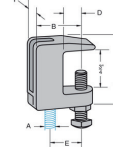

## BEAM CLAMPS

Beam clamps are used to suspend the H-Strut system from overhead beams or vertical columns. The many options available provide a wide range of attachment options and load capacities.

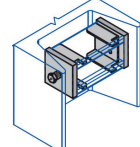

**Beam Clamp**

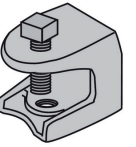

**Top Beam Clamp**

**Column Beam Clamp**

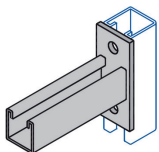

**Electrical Beam Clamp**

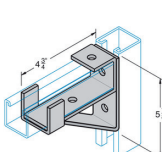

## BRACKETS

Channel brackets are available in many different lengths, sizes and finishes to accommodate various support applications.

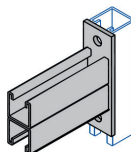

**Single Channel Bracket**

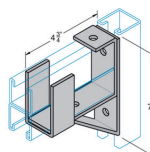

**Single Channel Bracket Support**

**Double Channel Bracket**

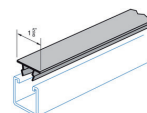

**Double Channel Bracket Support**

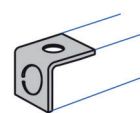

## ELECTRICAL

Haydon offers a UL-listed strut-type channel raceway system in accordance with the 2023 National Electrical Code (NEC/NFPA 70). This system allows H-132 and H-132-KO standard channels to be used as the wiring raceway, as well as support for various electrical systems. UL Listed #E344910

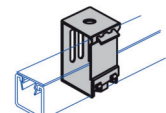

**Closure Strip**

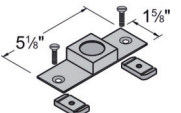

**End Cap**

**Raceway Hanger**

**Connector Plate**
