

ONE-SHOT

Top-Load Laundry Solutions

KEY FEATURES

- One Touch Microprocessor Based Programming
- Proven Reliable Peristaltic Pump (10oz./min.)
- Relay Mode For Microprocessor Washers
- Exclusive Programmable Product Lockout
- Delay Time Activation
- Start Button Disable Option
- Watertight, Impact Resistant, Thermoplastic Case

One-Shot Liquid Dispensers are advanced microprocessor-controlled injection systems that feed precise amounts of institutional cleaning chemical to top load laundry machines with 17 lb. to 125 lb. capacity.

Activation begins when the controller emits a trigger signal. Functions are controlled by field-adjustable timer settings that include a "Product Lockout" feature which helps control product consumption.

The system allows manual or remote button activation and includes a "relay mode" which allows for a timed signal from a microprocessor laundry machine to control the pump operation.

Models include 1 Product and 2 Product versions that include a modern, compact internal power supply that can be adjusted to match electrical systems worldwide. In contrast, a third model utilizes an external transformer.

These systems are configured for maximum safety, simple installation, and faster order fulfillment. Each system includes a power supply, a 6-ft power cord, a remote activator, and an install kit.

Typical applications are for Top Load or On-Premise Laundry Machines in nursing homes, restaurants, motels, shirt laundries, hotels, car wash stations. Other uses include restaurant pot and pan sinks and multi purpose mop bucket dispensing applications.

Trusted solutions. Cleaning made simple.

TECHNICAL DATA

Flow Rates

10 oz/min (295 mL/min)

Electrical

85-264VAC/47-63Hz

INCLUDES:

- Power Supply
- 6-ft Power Cord
- Remote Activator
- Install Kit

APPLICATIONS

Top Load or On-Premise Laundry Machines in...

- Nursing Homes
- Restaurants
- Motels / Hotels
- Shirt Laundries
- Car Wash Stations.

Other uses include restaurant pot and pan sinks and multi purpose mop bucket dispensing applications.

SIM GROUP

ONE-SHOT MODELS

Model #	Description
8601106	One-Shot, 1 Product Liquid Dispenser, Remote Activator, 6 ft Cord
8701106	One-Shot, 2 Product Liquid Dispenser, Remote Activator, 6 ft Cord
8600201-P1	One-Shot, 1 Product Liquid Dispenser, Remote Activator, 6 ft Cord, External Transformer
800201-E7	One-Shot Global , 1 Product Liquid Dispenser with Remote Activator, 6ft Cord, External Transformer
8600604-E7	One-Shot Global , 2 Product Liquid Dispenser with Remote Activator, 6 ft Cord, Plug Adapter Kit

REPLACEMENT PARTS

7018050	T-50E EPDM Squeeze Tube
7018101	T-50T Santoprene Squeeze Tube
7018211	T-50S Silicone Squeeze Tube
7018062	T-50F Viton Squeeze Tube
6049056	Squeeze Tube Fitting, Push-In, 1/4 Barb
0600572	Fitting, Push Connection 1/4" OD Tube

7142312-2	Circuit Board, One-Shot
7652000	Remote Activator, One Product
7652002	Remote Activator, Two Product
7501309	Pump Head Kit (Roller, face plate, & pump body)
2000540	Kit, Universal Plug Adapters USA to Australia, UK, & Europe

Features

- One touch microprocessor based programming
- Relay mode for microprocessor washers
- Remote activator
- Delay time activation
- Manual or automatic dispensing
- One second manual start
- Start button disable option
- Exclusive programmable product lockout
- Trigger input 14 VAC—250 VAC
- Water resistant, impact resistant thermoplastic case
- Proven reliable, 10 oz/min peristaltic pump
- Includes squeeze tube, tubing, and pickup stick (suction lance).
