

AQUACode

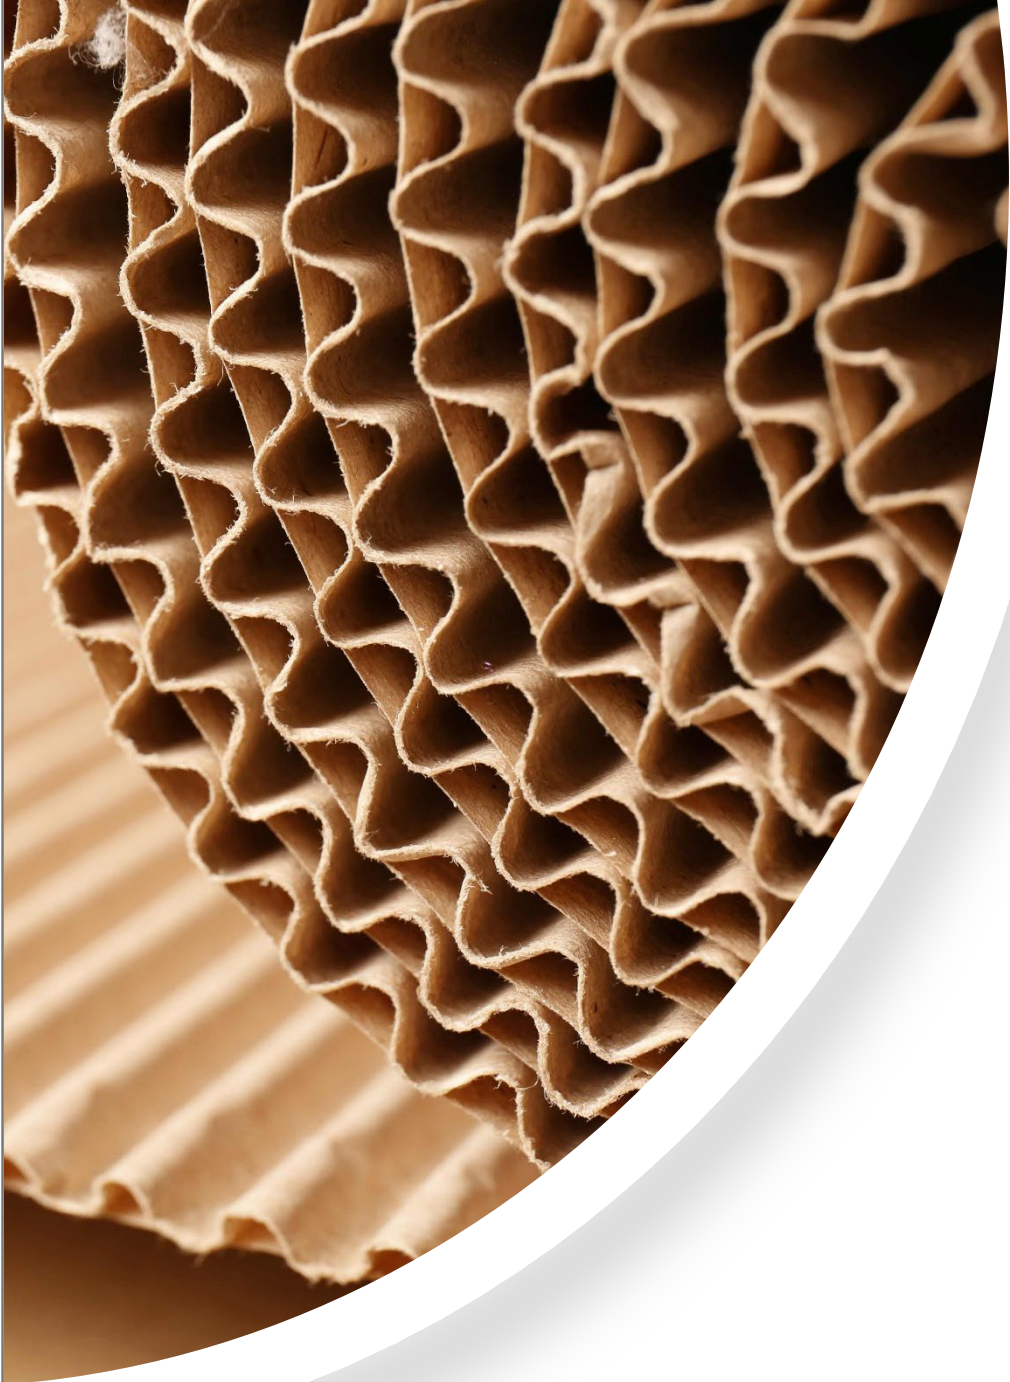

Water-based inks for post-print corrugated applications

AQUACode

Rely on us.™

- **AQUACode** is a water-based ink range designed for Paper Packaging applications.
- This global system offers excellent productivity, product safety and premium quality. Furthermore **AQUACode** provides high flexibility and ease of use.
- **AQUACode** contains product solutions to support your sustainable strategy and the supporting raw materials are carefully selected for supply security

AQUACode Product Series Features:

Relly on us.™

- Outstanding print quality
- Designed for food packaging
- Sustainable product options
- Made from globally compliant raw materials
- Provides high flexibility & ease of use
- Industry-leading mileage
- Reduces total cost of print

AQUACode Product Portfolio for Post-Print Applications

Rely on us.™

HexaCode is designed to perform for corrugated board, paper bags & sacks and other key applications

TerraCode is designed for Eco-Green solutions. A sustainable technology system that supports a more circular environment and can significantly reduce CO₂ emissions

This exciting **DecaCode** coating series is designed to protect and promote. It is a combination of our existing market leading products and new developments that extends the performance and broaden the product range

TriaCode is designed to complement and enhance our AQUACode ink series. Product range includes a number of special effect pigments and additives

HexaCode is designed to perform!

Rely on us.™

- HexaCode features optimised re-solubility and superior quality. This high colour strength system offers excellent pH and viscosity stability ensuring ease of use to maximise production efficiencies.
- HexaCode is food packaging compliant and contains OK compost options.

HexaCode Benefits:

- Improvements in product safety, print quality and total cost of print.
- Improved pH and viscosity stability.
- Improved plate and roller cleaning.
- Low maintenance product solution.

HexaCode Product Range

Rely on us.™

Product Name	Product Type	Product Code
HexaCode Base Black 7	Concentrate	WZHC-91K
HexaCode Base Green 7	Concentrate	WZHC-62K
HexaCode Base Cyan 15	Concentrate	WZHC-55K
HexaCode Base Violet 27	Concentrate	WZHC-48K
HexaCode Base Rhodamine 169	Concentrate	WZHC-44K
HexaCode Base Rubine 57	Concentrate	WZHC-37K
HexaCode Base Red 2	Concentrate	WZHC-31K
HexaCode Base Orange 13	Concentrate	WZHC-22K
HexaCode Base Yellow 13	Concentrate	WZHC-15K
HexaCode Base Yellow 3	Concentrate	WZHC-10K
HexaCode Base Opaque White 6	Concentrate	WZHC-02K
HexaCode Speed TX01	Extender	WIRS-T01
HexaCode Board XF Black U	RTU	WIRC-922

TerraCode is designed for sustainable solutions!

Rely on us.™

- Designed to support sustainable packaging solutions.
- Formulated with bio-renewable and recycled content to help lower carbon footprint.
- Providing a sustainable product series, that includes a range of OK Compost certified options to support the paper packaging markets.

Benefits of TerraCode

- High coverage, tonal values and trap quality.
- Contains up to 90% bio-renewable content.
- Reduces CO₂ emissions by up to 40%

TerraCode Product Range

Rely on us.™

Product Name	Product Type	Product Code
TerraCode Bio Opaque TX04	Extender	WIXF-T04
TerraCode Bio Screen TX00	Extender	WIXD-T00
TerraCode Bio Board X14	Extender	WIXC-X14
TerraCode Bio Board X08 HV	Extender	WIXC-X08

DecaCode is designed to protect and promote!

Rely on us.™

- DecaCode features a wide range of water-based coatings. These coatings are developed for various applications to enhance the visual & mechanical properties.

Benefits of DecaCode:

- Increased product safety.
- Increased press/conversion speeds.
- High product resistance.
- Supports plastic to paper projects.
- High gloss levels.

DecaCode Product Range

Relly on us.™

Product Name	Product Type	Product Code
DecaCode Gloss 05	OPV	WP3G-005
DecaCode Friction 62	OPV	WP3F-062

TriaCode is designed to complement and enhance!

Rely on us.™

- Unique options designed to boost print results or enhance the packaging printing process.
- Speciality inks to boost print, providing unique selling attributes with an enhanced appearance.
- Speciality additives that can be used to achieve specific properties related to various conditions and requirements.

Benefits of TriaCode:

- Unique and innovative effects
- Boosts performance
- Enhanced graphical impact

TriaCode Product Range

Rely on us.™

Product Name	Product Type	Product Code
TriaCode Refresh 09	Additive	WR5G-009
TriaCode Defoam 50	Additive	WR5F-050
TriaCode Clean 08	Additive	WR5E-008
TriaCode Retarder 20	Additive	WR5D-020
TriaCode Trap 08	Additive	WR5C-008
TriaCode Rub 08	Additive	WR5B-008
TriaCode Rub 07	Additive	WR5B-007
TriaCode Silver Base 11	RTU	WT3P-B11
TriaCode Gold Base 20	RTU	WT3P-A20
TriaCode Gold Base 10	RTU	WT3P-A10
