# Introducing TerraCode!

Water-based ink and coating technology designed to support sustainable packaging.

**Flint**Group

# Designed for Sustainable Solutions!

**Rely on us.<sup>SM</sup>**

**Water-based ink technology for Paper & Board applications, designed with circularity in mind.**

Flint Group's TerraCode series provides a solution for printers' and brand owners' sustainable projects for Paper & Board markets.

With TerraCode, Flint Group demonstrates its commitment to a sustainable future, whilst maintaining the print quality and packaging performance expected from a Flint Group product.

### Suitable for a wide variety of applications:

- Products for all Paper & Board applications
- Range includes high performance and direct food contact coatings

### Power up your Colors!

- Excellent mechanical resistance (i.e. for in-line die cutting applications)
- Provides excellent resolubility and clean print.
- Excellent pH and viscosity stability for low press side ink maintenance
- Delivers outstanding print quality results – perfect for expanded color gamut printing
- Excellent shelf life of press returns
- Meets and exceeds current market leading print speeds

**For more details, contact your nearest Flint Group office or dealer.**

### Think Global!

- A global product reinforced by a global team, infused with local experts and focused support
- Global Food Packaging and regulatory compliance
- Simplify the world of print with a global, consolidated ink system

### Dream Green!

- Chemistry designed with an environmental focus – suitable for the circular packaging economy
- Free of harmful mineral oils and solvents – designed for safe handling
- A product series which supports Flint Group's sustainability platform
- Natural pigments, resins, additives and biomass balance materials do not compete with food or facilitate deforestation

We bring **colour** to the world
