

TECHNICAL DATA SHEET

Varn® Enviroflex Aquawash KV60-OAW

Description:

An excellent all round flexographic and gravure press cleaner, formulated using safe detergents and cleaning agents; ideal for cleaning water based inks and coatings from most pressroom surfaces.

Can be pumped or circulated through the entire ink metering systems and dosed direct into automated press wash down systems, ancillary plate wash down systems, bucket wash systems, pressroom cleaning tanks and also for automated floor cleaning machines.

Recommended for use as part of a daily cleaning schedule to assist in maintaining press performance and print quality.

Application:

- Apply with a sponge, cloth, brush, pad or sprayer and allow to remain for a few minutes.
- Scrub the surface (the Varn® Enviroflex Pad is recommended for optimum performance).
- Wipe away any residue and flush the surface with water or remove with a clean cloth.
- Varn® Enviroflex Aquawash should be used diluted down to the optimum concentration by hand or via a dosing system.
- Suggested dilution rates:
 - Use at 1:9 dilution for general cleaning and flexographic plates.
 - Use at 1:2 dilution for heavy duty cleaning.
 - Use undiluted for heavily soiled areas.

Key Features:

- Formulated using a blend of environmentally friendly ingredients and fully biodegradable.
- Effective removal of aqueous based inks and coatings.
- Low VOC content.
- Low odour.
- High flashpoint (>100°C) AIII.
- Suitable for automated wash down systems and regular flushing in circulation systems.
- Economical in use.

Certifications:

- ISEGA certified for safe use in the printing process of food packaging materials.

Varn® Enviroflex Aquawash KV60-0AW

**Storage:**

- The products should be processed within 12 months after production date.
- To prolong the shelf life of the product, we recommend storage in its original, un-opened packaging at room temperature (20 - 25°C), as correct storage conditions are essential.

Quality / Environment / Health & Safety

Flint Group maintains a comprehensive Management System that integrates quality, environment, health & safety. Our production and quality control processes meet high industry standards, ensuring product safety and reliability. When used as intended, our products are safe and pose no hazards under normal conditions. For more details, refer to the Safety Data Sheet.

Handling precautions – skin sensitization

Ensure the use of proper protective equipment when handling chemicals. For detailed guidance, refer to the Safety Data Sheet and consult with your PPE (Personal Protective Equipment) provider.

Additional Information

Please contact your local Flint Group Customer/Technical Service if further information is required.
