Varn[®] Ink Readⁱ

Anti-Skinning Aerosol

Varn[®] Specialty Chemical: Aerosol

Varn[®] Ink-Readⁱ is a formulation of antioxidants which apply a protective film against ink skinning on rollers, in fountains or in cans. This is a professional product and will not change the color, consistency or drying speed of any offset or letterpress inks - even when trapping ink on the fourth color. Spray on ink rollers and ink fountain when the press is down for make-ready, lunch break and overnight. Spray new rubber to reduce oxidation, as well as roller ends to prevent glaze, friction and cracking. Ink-Readⁱ does not contain wax.

Advantages of Varn[®] Ink Readⁱ

- Contains no CFCs
- Formulated with antioxidants
- Will not effect ink drying
- Does not contain wax
