

TECHNICAL DATA SHEET

Varn® A 230

KV25-013

**Description:**

Varn® A-230 wash was carefully formulated with help from Heidelberg and Böttcher Roller Company. It is formulated to clean modern rubber compounds and will not harm the elastomers or synthetic ingredients used in blanket and roller manufacturing. Up to 25% water may be added to this blanket and roller wash to help simultaneously clean solvent-based ink and water-based gum glaze, paper dust, lint, etc. Varn Wash A-230 works well on any manufacturer's blankets and rollers.

Application:

- FOR BLANKETS: Apply by hand "as is" or apply to a damp rag to remove both water soluble and solvent soluble contaminants in one easy step.
- FOR ROLLERS: Use as a one-step wash with any automated wash-up attachment, or manually with a wash-up bottle. Varn Wash A-230 may be mixed with up to 25% water in a wash-up bottle. Do not dilute Wash A-230 with water in automated wash-up systems, as separation of product will occur.

Key Features:

- Water miscible.
- Excellent cleaning strength—especially for sensitive rubber compounds.
- Very mild on blankets and rollers.
- Will not swell rubber compounds.
- Designed for high tech rubber compounds.

Certifications:

- Baldwin sheetfed-approved.

TECHNICAL DATA SHEET

Varn® A 230 KV25-013

**Storage:**

- The product should be processed within 12 months after production date.
- To prolong the shelf life, we recommend storing the product in its original, un-opened packaging at room temperature (68 -78 °F), as correct storage conditions are essential.

Quality / Environment / Health & Safety

Flint Group maintains a comprehensive Management System that integrates quality, environment, health & safety. Our production and quality control processes meet high industry standards, ensuring product safety and reliability. When used as intended, our products are safe and pose no hazards under normal conditions. For more details, refer to the Safety Data Sheet.

Handling precautions – skin sensitization

Ensure the use of proper protective equipment when handling chemicals. For detailed guidance, refer to the Safety Data Sheet and consult with your PPE (Personal Protective Equipment) provider.

Additional Information

Please contact your local Flint Group Customer/Technical Service if further information is required.
