Varn® FBS 6500

High performance web conditioner for quality enhanced Heatset web printing

Silicone emulsion for Heatset web printing

Product Features

- Varn® FBS 6500 is a concentrated water base emulsion which is applied to web stock to eliminate smearing or streaking.
- Varn® FBS 6500 reduces sheet static and aids in the folding, cutting and slitting of the finished stock.
- Varn® FBS 6500 adds slip to the web, which enables it to glide over the former board or turns bars without streaking the printed surface, giving improved stock appearance and ease of handling.
- Varn® FBS 6500 performs best when used in a web roller coater, but can be used by spray application. It contains a surfactant which reduces surface tension and improves product mileage.
- Varn® FBS 6500 contains 50% solids.

Advantages of Varn® FBS 6500

- Anti-corrosion agents.
- Pure silicone oils.
- Suitable for high speed presses.
