

TECHNICAL DATA SHEET

Varn® Protector Fount KT10-OPF

Description:	A one step alcohol replacement fountain solution, tried and tested on all types of sheetfed press. This fully buffered product is stable in all water conditions, and will dramatically reduce the use of alcohol, in many cases eliminating it completely. Conscious of the health and safety of the printer, this fount incorporates sophisticated technology to produce a fount solution to meet current health and safety legislation. In addition it has been formulated to meet the requirements and demands of the latest plate technology used in today's sheetfed industry.
Application:	• Recommended dosage of 2.00 - 4.00%, depending on local water conditions. Fount for normal water conditions < 15 degrees German hardness < 250ppm Calcium Carbonate. • Follow relevant Good Manufacturing Practice (GMP) guidelines if used for the production of food packaging. • Typical IPA levels 0.01 - 5.00%.
Key Features:	• Reduced set-off. • Reduced wash-ups of impression cylinders. • Denser colours and increased ink mileage. • Consistent print quality. • Reduced alcohol consumption and reduced VOC's. • Accurate control of pH. • Environmentally friendly. • Better dampening solution control. • Non-foaming. • Improved wetting system.

TECHNICAL DATA SHEET

Varn® Protector Fount KT10-OPF

**Storage:**

- The products should be processed within 12 months after production date.
- To prolong the shelf life of the fount concentrate, we recommend storing the product in its original, un-opened packaging at room temperature (20 - 25°C), as correct storage conditions are essential.

Quality / Environment / Health & Safety

Flint Group maintains a comprehensive Management System that integrates quality, environment, health & safety. Our production and quality control processes meet high industry standards, ensuring product safety and reliability. When used as intended, our products are safe and pose no hazards under normal conditions. For more details, refer to the Safety Data Sheet.

Handling precautions – skin sensitization

Ensure the use of proper protective equipment when handling chemicals. For detailed guidance, refer to the Safety Data Sheet and consult with your PPE (Personal Protective Equipment) provider.

Additional Information
