

TECHNICAL DATA SHEET

Varn® News 75 Wash KV10-OF6

**Description:**

A water miscible roller and blanket cleaner exclusively formulated for use in the ever changing and demanding newspaper industry. It exhibits excellent results on both rollers and blankets, whilst offering safety features such as a flashpoint >75°C.

A low odour product which is pleasant to use and is non-corrosive to all press parts. This wash is safe on all plates and in particular, the latest processless plate materials. It is an excellent value product providing all important savings for the end user.

Application:

- Blankets: Use Varn® News 75 Wash diluted with water (warm water will give faster and better wash-up results) and apply to blanket with a lint free cloth. Allow to penetrate the ink and paper residues, use a second application if necessary and buff dry with a clean cloth.
- Rollers: Use Varn® News 75 Wash neat or dilute with up to 20% water. Always clean any spillage from the floor immediately. To assist wash up performance use in conjunction with Varn® Aqua Plus automatic wash water additive.

Key Features:

- Low odour.
- Removes paper fibres, ink, lint, coating and glaze.
- High flashpoint (>75°C) AIII.
- Non-corrosive.
- Aromatic free.
- Water miscible.

Certifications:

- OEM approved (Manroland & KBA Coldset Web presses, in accordance with Fogra corrosion and elastomer swell testing criteria.

TECHNICAL DATA SHEET

Varn® News 75 Wash KV10-OF6

Storage:

- The products should be processed within 24 months after production date.
- Once opened the products should be processed within 12 months.
- To prolong the shelf life of the wash, we recommend storing the product in its original, un-opened packaging at room temperature (20 - 25°C), as correct storage conditions are essential.

Quality / Environment / Health & Safety

Flint Group maintains a comprehensive Management System that integrates quality, environment, health & safety. Our production and quality control processes meet high industry standards, ensuring product safety and reliability. When used as intended, our products are safe and pose no hazards under normal conditions. For more details, refer to the Safety Data Sheet.

Handling precautions – skin sensitization

Ensure the use of proper protective equipment when handling chemicals. For detailed guidance, refer to the Safety Data Sheet and consult with your PPE (Personal Protective Equipment) provider.
