Varn® Majesta Triumph

High-performing heatset fountain solution with advanced technology to meet the demands of today's press rooms.

Fountain Solution: Heatset - for magazine and catalog printing

Varn® Majesta Triumph is a highly versatile fount that performs admirably with all heatset inks and in conventional or brush dampening systems. With its unique blend of materials, Majesta Triumph has been proven to enhance press performance, maintain a cleaner and more stable fountain solution delivery system, and keep the non-image areas of the plates and blankets clean throughout the press runs, even at the lowest possible water settings. It is designed for use with today's wide variety of substrates.

Printers who prefer streamlined purchasing from one trusted supplier can add Varn® Majesta Triumph to the broad range of compatible inks, blankets and pressroom chemicals available from Flint Group.

Advantages of Varn® Majesta Triumph

- Excels at the lowest possible doses
- Enables improved ink transfer
- Reduces paper piling and ink build-up on dampening rollers
- Strong chelating package
- Superior protection of non-image areas of plates and blankets

HEATSET.
