Web-Based Analytical Application Providing Powerful Quality and Performance Graphical Reporting

VIVO PerformanceManager is part of Flint Group's unique colour services toolbox designed to provide a dynamic end to end digital colour workflow for an integrated pressroom.

VIVO PerformanceManager is a secure web-based analytical application, used in conjunction with VIVO ColourSuite, made for the print industry by print experts, which easily adapts to the changing requirements of our industry.

VIVO PerformanceManager takes digital colour data from the VIVO ColourSuite and creates valuable quality and operational reports enabling management to monitor performance and KPI trends. Through the built in graphical reports users can verify colour compliance trends, identify improvement opportunities and benchmark performance across machines, sites, or regions.

FEATURES & BENEFITS:

- Availability of dynamic production colour data reports to manage the process, improve efficiency and significantly reduce costs:
- 'Right First Time' - percentage vs. cost.
- Identify dE & colour trends.
- Strength/cost reduction opportunities.
- Filter on substrate/press/design/etc. for specific detailed reporting.
- Performance benchmarking - press/site/region.
- Print and distribute professional graphs and performance data.

System requirements

VIVO PerformanceManager requires a PC, internet connection and web browser. The minimum requirement is Windows 10 and the latest version of Edge, Chrome or Firefox.
