

# Varn® DDS Fount

**Advanced small offset fountain solution** 

# Suitable for all small offset presses

#### **Product Features**

- Varn® DDS Fount, based on brand new technology, is a truly revolutionary fountain solution, tried and tested on all types of small offset press. This fully buffered product is stable in all water conditions, and will dramatically reduce the need for alcohol, in many cases eliminating it completely.
- Suitable for use with all plates, inks, and dampening systems Varn® DDS Fount is a complete product that prints sharper and will give clean, quick start-ups with a definite reduction in ink consumption.
- Varn® DDS Fount has been formulated to meet the requirements and demands of the latest CtP technology used in today's sheetfed industry.

## Advantages of Varn® DDS Fount

- Alcohol reduced or eliminated.
- Improved desensitising properties.
- Runs with less water and ink.
- Calcium friendly.
- Quicker start ups.
- Assists ink drying.
- Compatible with all types of plates, fount systems and inks.
