# Varn® Enviroflex™ Cell Renew

Foaming Anilox Cleaner for all Water Based inks and Coatings

## Anilox Cleaner

### Product Features

- Varn® Enviroflex Cell Renew uses foaming action to deeply clean and renew cell transfer properties.
- Varn® Enviroflex Cell Renew coats the anilox roller with a foam that immediately begins cutting and lifting ink and coating build in the anilox cells.
- Varn® Enviroflex Cell Renew provides for healthy cells that improves color and gloss consistency.
- Varn® Enviroflex Cell Renew improves solid print lay. Limits the need to double print solids.
- Apply to plates post press and pre-treat plates prior to reuse to remove dried on ink residue.
- Also, effective for use in aqueous coating units.

### Advantages of Varn® Enviroflex

- Foam application has cutting and lifting technology
- Restores cell depth
- Removes dried aqueous ink and coating build up in anilox cells.
- Deep cleans to improve ink transfer.
