

# 8212 Non-compressible

## Unique Blanket with Unique Printing Qualities

The dayGraphica 8212 has a superior cast surface that prevents swelling and tackiness, resists piling and allows for easy wash-up. The instant release characteristics eliminate the battle with sheet curl and give a good hard dot reproduction. The top layer provides resiliency and the bottom layer maintains stability.

### Features

### Benefits

Superior cast surface conventional blanket	<ul style="list-style-type: none"> <li>Reduces solvent penetration. Prevents swell and tackiness. Resists piling. Easy wash-up.</li> </ul>
Super quick release	<ul style="list-style-type: none"> <li>Instant release-eliminating sheet curl, hard dot reproduction. Low-stretch fabric provides gauge retention.</li> </ul>

### Specifications

#### Color:

Blue

#### Surface:

Cast Finish

#### Thickness:

2 Ply 1,32mm/.052" Nominal

3 Ply 1,67mm/.066" Nominal

4 Ply 1,98mm/.076" Nominal

5 Ply 2,57mm/.101" Nominal

#### Face Compound:

Solvent Resistant Rubber Blend

#### Hardness:

81° Shore A

#### Compressibility Deflection:

2 Ply 0.002" Typical at 145 psi

3 Ply 0.003" Typical at 145 psi

4 Ply 0.003" Typical at 145 psi

5 Ply 0.004" Typical at 145 psi

#### Elongation:

2 Ply 1.1% Typical at 57 ppi

3 Ply 1.0% Typical at 57 ppi

4 Ply 0.9% Nominal at 57 ppi

5 Ply 0.8% Typical at 57 ppi

#### Tensile Strength:

2 Ply 390 ppi Typical

3 Ply 550 ppi Typical

4 Ply 670 ppi Typical

5 Ply 780 ppi Typical

Sheetfed	Large Commercial	Medium Commercial
Packaging	Folding Carton	Metal Deco Sheet
