Varn® CSF 9245

Description

Fountain solution for Coldset Spray, Turbo and Brush dampening systems

Product Features

- Varn® CSF 9245 is a complete fount solution that prints sharper and will give quick, clean start-ups with a definite reduction in ink consumption.
- Varn® CSF 9245 has been specially formulated to reduce the build-up of insoluble roller deposits particularly when running half webs. Ink stripping problems are eliminated when returning to full web widths.

Advantages

- Formulated to meet all water conditions.
- Reduces waste.
- Proven performance on high speed web presses.
- Reduces insoluble roller deposits when running half web.
- Compatible with dayGraphica sleeves
- Minimises ink feedback into dampeners
- Conforms to Blue Angel Eco-label certification criteria.

Benefits:

- Consistent press performance, no need for constant adjustments.
- Long press life.
- Less waste therefore improved productivity and saleable copy.
- Eliminates ink stripping from rollers.

Varn® CSF 9245

Available pack sizes	200kg (01N1), 1000kg (01U0).
Product code	KT10-145G-#### (final 4 digits relating to pack size).
Application	Coldset spray, turbo and brush dampening presses.
VOC content	0%
Flashpoint	>100°C.
Approvals	OEM approved (manroland and KBA coldet presses) in accordance with Fogra corrosion and elastomer swelling testing criteria. Blue Angel Eco-label compliant.

More products. Streamlined access. Greater results.

We offer a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

Pressroom Chemicals. Blankets. Sleeves. Consumables.
